Poker and Philosophy Eric Bronson, 2012-03-30 Does God play cards with the universe Do women have better poker faces than men What s the most existential poker movie ever made Is life more meaningful when you go all in Is online poker really still poker *Poker and Philosophy* ponders these questions and more pitting young lions against old masters as the brashness of Phil Hellmuth meets the arrogance of Socrates the recklessness of Doyle Brunson challenges the desperation of Dostoyevsky and the coolness of Chris MoneyMaker takes on the American tradition of capitalist ingenuity This witty collection of essays demonstrates what serious card sharks have long known winning big takes more than a good hand and a straight face Stacking the metaphorical deck with a serious grounding in philosophy is the key to raking it in because as Machiavelli proved long ago it s a lot better to be feared than loved and lying is not the same as cheating

processes and principles of what the editors of this volume call andragogy This Handbook goes beyond the mechanics of how to create and direct an online learning experience to consider such a new approach to pedagogy in doing so The editors primary purpose is to clarify the conceptual issues that underlie effective online teaching and to offer practical guidance to educators and corporate trainers who plan to teach in a virtual environment Their central tenet is the adoption of computer networks as the teaching vehicle of the future demands a re examination of our core beliefs about pedagogy and how students learn The transfer of a classroom curriculum into cyberspace is deceptively simple but doing so without an appreciation of the nuances and implications of learning online ignores not only the potential of this medium but the inevitable realities of entering it Rather than fear the challenges that new technology brings to systems of learning the editors hope to help instructors embrace it by re thinking how knowledge is acquired and how educational processes may be optimally designed in a new age of teaching and learning Features Benefits Part I provides an overview and includes discussion of the unique structural aspects of the electronic learning environment pedagogical issues curriculum design psychological and group dynamics and ethical issues Part II examines practical issues associated with implementing courses online both in the traditional university setting and in professional corporate training environments The book draws heavily on personal case examples many from The Fielding Graduate Institute s 26 years of teaching in nontraditional distributed learning environments *Ideas for 21st Century Education* Ade Gafar Abdullah, Ida Hamidah, Siti Aisyah, Ari Arifin Danuwijaya, Galuh Yuliani, Heli S.H.
