

Cost Accounting: A Managerial Emphasis - Cdn. Ed., 8e (Horngren)
Chapter 5 Activity-Based Costing and Management

1 Identify the basic elements of activity-based costing (ABC) systems as distinguished from traditional systems, and explain how preventable undercosting and overcosting of products and services affects profitability.

1) Peanut butter costing involves assigning costs in a non uniform manner to reflect the different utilization of resources by different products or services.

Answer: FALSE

Explanation: The term **peanut butter costing** describes a particular costing approach that uses broad averages for assigning (or spreading, as in spreading peanut butter) the cost of resources uniformly to cost.

Displacement by Development Peter Penz,Jay Drydyk,Pablo S. Bose,2011-01-20 For decades policy makers in government development banks and foundations NGOs researchers and students have struggled with the problem of how to protect people who are displaced from their homes and livelihoods by development projects This book addresses these concerns and explores how debates often become deadlocked between managerial and movementist perspectives Using development ethics to determine the rights and responsibilities of various stakeholders the authors find that displaced people must be empowered so as to share equitably in benefits rather than being victimized They propose a governance model for development projects that would transform conflict over displacement into a more manageable collective bargaining process and would empower displaced people to achieve equitable results Their book will be valuable for readers in a wide range of fields including ethics development studies politics and international relations as well as policy making project management and community development
