Creating Christ How Roman Emperors Invented Christianity:

Creating Christ James S. Valliant, C. W. Fahy, 2016-09-07 Exhaustively annotated and illustrated this explosive work of history unearths clues that finally demonstrate the truth about one of the world's great religions that it was born out of the conflict between the Romans and messianic Jews who fought a bitter war with each other during the 1st Century. The Romans employed a tactic they routinely used to conquer and absorb other nations: they grafted their imperial rule onto the religion of the conquered. After 30 years of research, authors James S. Valliant and C. W. Fahy present irrefutable archeological and textual evidence that proves Christianity was created by Roman Caesars. In this book that breaks new ground in Christian scholarship and is destined to change the way the world looks at ancient religions forever. Inherited from a long past era of tyranny, war, and deliberate religious fraud, could Christianity have been created for an entirely different purpose than we have been led to believe. Praised by scholars like Dead Sea Scrolls translator Robert Eisenman, James the Brother of Jesus, this exhaustive synthesis of historical detective work integrates all of the ancient sources about the earliest Christians and reveals new archeological evidence for the first time. And despite the fable presented in current bestsellers like Bill O'Reilly's *Killing Jesus*, the evidence presented in *Creating Christ* is irrefutable. Christianity was invented by Roman Emperors. I have rarely encountered a book so original, exciting, accessible, and informed on subjects that are of obvious importance to the world and to which I have myself devoted such a large part of my scholarly career. Studying in this book, they have rendered a startling new understanding of Christianity with a controversial theory of its Roman provenance that is accessible to the layman in a very powerful way. In the process, they present new and comprehensive archeological and iconographic evidence as well as utilizing the widest and most cutting-edge work of other recent scholars, including myself. This is a work of outstanding and original scholarship. Its arguments are a brilliant, profound, and thorough integration of the relevant evidence. When they are done, the conclusion is inescapable and obviously profound. Robert Eisenman, Author of *James the Brother of Jesus* and *The New Testament Code*. A fascinating and provocative investigative history of ideas boldly exploring a problem that previous scholarship has not clearly or credibly addressed: how and why the Flavian dynasty wove Christianity into the very fabric of Western civilization. Mark Riebling, author of *Church of Spies*, *The Pope's Secret War Against Hitler*.

Creating Christ James S. Valliant, Warren Fahy, 2018-11-15 Exhaustively annotated and illustrated. *Creating Christ* is an explosive work of history unearthing clues that finally reveal the truth about one of the world's great religions. Christianity was born out of the cataclysmic conflict between the Roman Empire and messianic Jews that culminated in two bitter wars fought during the 1st and 2nd Centuries. The Romans not only reduced the legendary Jerusalem Temple to a Wailing Wall; they grafted their imperial rule onto the religion of the vanquished as well as they had done with other conquered cultures. Inherited from an era of tyranny, war, and deliberate religious fraud, the New Testament was created for a long forgotten purpose: the pacification of messianic rebels. After 30 years of research, authors James S. Valliant and Warren Fahy

hovering just above my head that the heavy handed church elders assured me was a god I was fifteen years of age and like any gullible teenager I enjoyed the church attention I was getting and all the loot of heaven promised that I could get by faith. The well worn pathway to healing through college education and a life of skeptical thinking and reading is explained in the two hour read of my book So please let me share this short autobiographical journey with you that freed me from religious fear and guilt to a life of joyful wonder and discovery.

Seventy Weeks Prophecy: How the Bible Foretold the Year Jesus(As) and Muhammad(Saw) Will Come on Earth Pedro C. Arceno Jr, 2019-07-22 Volume 1 of the book will discuss the true gospel of Jesus as which is about the imminent coming of the Son of Man and the establishment of the universal kingdom of God on earth. We will emphasize the fact that the entire ministry of Jesus as is all about the good news of the imminent fulfillment of the Son of Man prophecy and the Kingdom of God prophecy of Prophet Daniel as written in the Bible. Based on the correct context and interpretation the Son of Man mentioned by Jesus as refers to Prophet Muhammad saw and the kingdom of God refers to Islam. Volume 2 will discuss about the fulfillment of the Seventy Weeks prophecy of Prophet Daniel as This prophecy is actually a countdown to know the year Jesus as and Muhammad saw will come on earth. Jesus as is expected to arrive in the sixty ninth week of the countdown and Prophet Muhammad saw will arrive in the seventieth week of the countdown. Its exact fulfillment in history such as the year of their birth, the starting year of their ministry and the year their messianic mission will be accomplished is a miracle or sign from God Almighty. Qur an 20:133 and a clear evidence Qur an 61:6 attesting the veracity of the prophethood of both Jesus as and Muhammad saw. This will explain to us why there were Jews in Judea who knew what time or year Jesus as will arrive on earth and why there were Jews in Yathrib Arabia who knew what time or year Muhammad saw will emerge as Messenger of God.

Can a brilliant boxer clean the hood's mean streets of brutal thugs and win back the girlfriend that his neglect permitted to be savagely assaulted.

How do multiple survivors of a violent school invasion deal with the aftermath of the tragic event These are just some of the vivid characters and conflicts gracing the pages of this collection

The Gospels Behind the Gospels Robert M. Price, 2023-02-23 What if we have been missing a whole stage of how the canonical gospels came to be What if there were a whole raft of prior Jesus narratives whether written or oral the fragmentary vestiges of which now appear in Matthew Mark Luke and John This would explain why these gospels seem over crowded with incompatible understandings of Jesus Christologies In *The Gospels Behind the Gospels* innovative biblical scholar Robert M Price attempts to reassemble the puzzle pieces disclosing several earlier gospels of communities who imagined Jesus as the predicted return of the prophet Elijah the Samaritan Taheb a second Moses a resurrected John the Baptist a theophany of Yahweh a Gnostic Revealer a Zealot revolutionary etc As these various sects shrank and collapsed their remaining followers would have come together just as modern churches and denominations seek to survive by merging and consolidating Our canonical gospels might be the result Similarly Price explores the possibility that Paul Apollos Cephas and Christ listed as if on a par in 1 Corinthians 1 12 were originally figureheads of rival sects who eventually merged in much the same way You will never read the gospels the same way again

Medieval Jews and the Christian Past Ram Ben-Shalom, 2015-10-29 The focus in this book is on the historical consciousness of the Jews of Spain and southern France in the late Middle Ages and specifically on their perceptions of Christianity and Christian history and culture Ram Ben Shalom offers a detailed analysis of Jews exposure to the history of those among whom they lived He shows that the Jews in these southern European lands experienced a relatively open society that was sensitive to and knowledgeable about voices from other cultures and that this had significant consequences for shaping Jewish historical consciousness

Creating Christian Granada David Coleman, 2013-08-15 *Creating Christian Granada* provides a richly detailed examination of a critical and transitional episode in Spain's march to global empire The city of Granada Islam's final bastion on the Iberian peninsula surrendered to the control of Spain's Catholic Monarchs Isabella and Ferdinand on January 2 1492 Over the following century Spanish state and Church officials along with tens of thousands of Christian immigrant settlers transformed the formerly Muslim city into a Christian one With constant attention to situating the Granada case in the broader comparative contexts of the medieval reconquista tradition on the one hand and sixteenth century Spanish imperialism in the Americas on the other Coleman carefully charts the changes in the conquered city's social political religious and physical landscapes In the process he sheds light on the local factors contributing to the emergence of tensions between the conquerors and Granada's formerly Muslim native morisco community in the decades leading up to the crown mandated expulsion of most of the city's moriscos in 1569 1570 Despite the failure to assimilate the moriscos Granada's status as a frontier Christian community under construction fostered among much of the immigrant community innovative religious reform ideas and programs that shaped in direct ways a variety of church wide reform movements in the era of the ecumenical Council of Trent 1545 1563 Coleman concludes that the process

by which reforms of largely Granadan origin contributed significantly to transformations in the Church as a whole forces a reconsideration of traditional top down conceptions of sixteenth century Catholic reform **And Man Created God** Selina O'Grady,2012-09-01 And Man Created God is a sweeping exploration of the changing religions of the empires and peoples of the world at the time of Jesus a work of extraordinary richness and ambition this is popular history at its best At the time of Jesus s birth the world was in ferment Across Europe North Africa the Middle East and Asia societies rife with gods and messiahs priests and warriors the old certainties of family village and tribe were being overturned Religion was becoming the source of order and stability And Man Created God takes the reader on a dazzling journey across the empires of the ancient world to reveal how emperors and kings manipulated religion to consolidate their power In Rome Augustus was deified by his brilliant spin doctors in what is now Sudan the warrior queen Amanirenas exploited her godlike status to inspire her armies to face and defeat Rome while in China the usurper Wang Mang won and lost the throne over his obsession with Confucianism In this riveting account of the interplay of faith and power Selina O Grady answers the most urgent question of all how did the tiny Jesus cult triumph over more popular religions the goddess Isis the miracle worker Apollonius even the cult of Augustus to become the world s dominant faith **If Not Now, When?** Mathijs Koenraadt,2018-07-11 This book is an assorted collection of articles and essays written between 2015 and 2018 They cover themes of urbanization identity diversity and the future of Western civilization The author believes that the supporters of open borders have turned the West its territories and its nations into a Ponzi scheme The scheme requires a continuous flow of goods and people from elsewhere in the world the sources to Western nations the sinks In so doing the West has absorbed the brightest minds it could not produce itself It has employed a foreign born labor force to fuel its low cost industries because white women keen on luxury lifestyles have failed to produce the babies needed to populate the underclasses And let s not ignore the vast resources procured through a colonial legacy of theft and oppression both in the past and in the present In short immigration to the West is a scam **Created for Understanding** Robert B. Science Falin Chen, Fang-Tzu Hsu, 2020-04-27 The development of science has been an ideological struggle that lasted over three millennia At and after the times of the Babylonian Empire however the pace of scientific evolution was painfully slow This situation changed after Copernicus kick started the Scientific Revolution with his heliocentric theory Newton's law of universal gravitation transformed natural philosophy previously focused on mythology and abstract philosophical thinking into an orderly and rational physical science Einstein's redefinition of space and time revealed a new and central principle of the Universe paving the way for the huge amounts of energy held deep inside physical matter to be released To this day many of our known physical theories represent an accumulation of changing knowledge over the long course of scientific history But what kind of changes did the scientists see What questions did they address What methods did they use What difficulties did they encounter And what kind of persecution might they have faced on the road to discovering these beautiful sometimes almost mystical ideas This book's purpose is to investigate these questions It leads the reader through the stories behind major scientific advancements and their theories as well as explaining associated examples and hypotheses Over the course of the journey readers will come to understand the way scientists explore nature and how scientific theories are applied to natural phenomena and every day technology **CHRISTIANITY** Edward J.
