Conflict of interests in high-tech investment advisory Daniel Favoretto, 2024-02-21 What are the potential sources of conflict of interests in investment advisory services and how should the law design legal tools of retail investor protection? These are the questions addressed by this book which explores the new legal challenges of investor protection in the context of digital investment platforms and genAI advisors. The author analyses the investor protection tools provided by competition law, regulatory and private law frameworks taking Brazil as a case study where investment advisory experienced a unique market change and a major regulatory reform. This book addresses a worldwide audience and concludes with a set of policy recommendations.

New Technologies, New Risks? Andrew Zerzan, 2009-11-30 New financial and communication technologies offer a great opportunity to improve the lives of people everywhere. For instance, millions of impoverished people now have access to the financial system through stored value cards or mobile phones. However, some are concerned that governments are not always aware of these innovations in their jurisdictions. This has prompted fear that fast-moving terrorist groups could expand funding undetected. The fear has led some countries to take a restrictive stance on the technologies, use either by outright prohibition or by placing unnecessary limitations that deter market development. Authorities are therefore challenged to tackle the double-sided nature of technological advancement: promoting security and economic growth. *New Technologies, New Risks: Innovation and Countering the Financing of Terrorism* explores how money flows via these mediums, risks they pose and how governments have mitigated the risks.
