between the early 1980s and late 1990s The authors explore the composition of applicant pools factoring in background and selective admission enhancement strategies including AP classes test prep courses and extracurriculars to assess how these strengthen applications On campus the authors examine roommate choices friendship circles and degrees of social interaction and discover that while students from different racial and class circumstances are not separate in college they do not mix as much as one might expect The book encourages greater interaction among student groups and calls on educational institutions to improve access for students of lower socioeconomic status *No Longer Separate Not Yet Equal* offers valuable insights into the intricate workings of America s elite higher education system *Barron's How to Prepare for the College Board Achievement Test* Shirley O Hockett,Howard P.
