Bassnett Translation Studies:

Translation Studies Susan Bassnett, 2002 In the late 1970s a new academic discipline was born Translation Studies We could not read literature in translation it was argued without asking ourselves if linguistic and cultural phenomena really were translatable and exploring in some depth the concept of equivalence When Susan Bassnett's Translation Studies appeared in the New Accents series it quickly became the essential introduction to this new subject Susan Bassnett tackles the crucial problems of translation and offers a history of translation theory beginning with the ancient Romans and encompassing key twentieth century structuralist work She then explores specific problems of literary translation through a close practical analysis of texts and completes her book with extensive suggestions for further reading Twenty years after publication the field of translation studies continues to grow Updated for the second time Susan Bassnett's Translation Studies remains essential reading for anyone new to the field

The Translator as Writer Susan Bassnett, Peter Bush, 2007-11-15 Over the last two decades interest in translation around the world has increased beyond any predictions International bestseller lists now contain large numbers of translated works and writers from Latin America Africa India and China have joined the lists of eminent bestselling European writers and those from the global English speaking world Despite this translators tend to be invisible as are the processes they follow and the strategies they employ when translating The Translator as Writer bridges the divide between those who study translation and those who produce translations through essays written by well known translators talking about their own work as distinctive creative literary practice The book emphasises this creativity arguing that translators are effectively writers or rewriters who produce works that can be read and enjoyed by an entirely new audience The aim of the book is to give a proper prominence to the role of translators and in so doing to move attention back to the act of translating away from more abstract speculation about what translation might involve

Constructing Cultures Susan Bassnett, André Lefevere, 1998 This collection brings together two leading figures in the discipline of translation studies The essays cover a range of fields and combine theory with practical case studies involving the translation of literary texts

Übersetzen und Interpretation Holger Siever, 2010 Diese Arbeit verfolgt drei miteinander eng verbundene Ziele Zum einen soll die Entwicklung und Ausdifferenzierung der Übersetzungswissenschaft als eigenständige Wissenschaftsdisziplin im Zeitraum von 1960 bis 2000 im deutschen Sprachraum nachgezeichnet werden Zum anderen soll die Abfolge der verschiedenen Übersetzungstheorien in diesem Zeitraum mit der Theorieentwicklung in den übrigen Wissenschaften korreliert werden Zu diesem Zweck werden die Übersetzungstheorien anhand ihrer grundsätzlichen Gemeinsamkeiten zu Paradigmen zusammengefasst Diese beiden Teilziele dienen einem übergeordneten Zweck Das Ergebnis der Untersuchung mündet in der Darlegung einer integrativen semiotisch und interpretationstheoretisch fundierten Theorie des Übersetzens

Reflexive Translation Studies Silvia Kadiu, 2019-04-08 In the past decades translation studies have increasingly focused on the ethical dimension of translational activity with an emphasis on reflexivity to assert the role of the researcher in highlighting issues of visibility creativity and ethics In *Reflexive Translation Studies* Silvia Kadiu investigates the viability of theories that seek to empower translation by making visible its transformative

dimension for example by championing the visibility of the translating subject the translator's right to creativity the supremacy of human translation or an autonomous study of translation Inspired by Derrida's deconstructive thinking Kadiu presents practical ways of challenging theories that argue reflexivity is the only way of developing an ethical translation She questions the capacity of reflexivity to counteract the power relations at play in translation between minor and dominant languages for example and problematises affirmative claims about self knowledge by using translation itself as a process of critical reflection In exploring the interaction between form and content Reflexive Translation Studies promotes the need for an experimental multi sensory and intuitive practice which invites students scholars and practitioners alike to engage with theory productively and creatively through translation
