Berossus And Genesis Manetho And Exodus Hellenistic Histories And The Date Of The Pentateuch:

Berossus and Genesis, Manetho and Exodus Russell Gmirkin, 2006-05-15 Berossus and Genesis Manetho and Exodus proposes a provocative new theory regarding the date and circumstances of the composition of the Pentateuch Gmirkin argues that the Hebrew Pentateuch was composed in its entirety about 273-272 BCE by Jewish scholars at Alexandria that later traditions credited with the Septuagint translation of the Pentateuch into Greek The primary evidence is literary dependence of Gen 1-11 on Berossus *Babyloniaca* 278 BCE and of the Exodus story on Manetho's *Aegyptiaca* c. 285-280 BCE and the geo-political data contained in the Table of Nations A number of indications point to a provenance of Alexandria Egypt for at least some portions of the Pentateuch That the Pentateuch drawing on literary sources found at the Great Library of Alexandria was composed at almost the same date as the Septuagint translation provides compelling evidence for some level of communication and collaboration between the authors of the Pentateuch and the Septuagint scholars at Alexandria's Museum The late date of the Pentateuch as demonstrated by literary dependence on Berossus and Manetho has two important consequences the definitive overthrow of the chronological framework of the Documentary Hypothesis and a late 3rd century BCE date for major portions of the Hebrew Bible which show literary dependence on the Pentateuch Die Ortsangaben im Buch Genesis Detlef Jericke, 2013-10-02 Detlef Jericke kommentiert alle in der Genesis vorkommenden Ortsangaben nach der Reihenfolge ihres Auftretens Zu jeder Ortsangabe werden Lokalisierungsvorschläge diskutiert wobei soweit möglich ein Vorschlag näher begründet wird Daneben steht die literarisch-topographische Auswertung bei welcher erörtert wird inwieweit die Verwendung der Toponyme den Sinngehalt der Erzählungen der Genesis mitgestaltet Insofern lässt sich von einer topographischen Inszenierung der Texte sprechen Dabei geht Jericke auch Fragen nach dem zeitgeschichtlichen Hintergrund einzelner Erzählabschnitte nach 5 Karten veranschaulichen die Ergebnisse der topographischen Untersuchungen **Hellenism and the Primary History** Robert Karl Gnuse, 2020-09-30 This collection of essays seeks to demonstrate that many biblical authors deliberately used Classical and Hellenistic Greek texts for inspiration when crafting many of the narratives in the Primary History Through detailed analysis of the text Gnuse contends that there are numerous examples of clear influence from late classical and Hellenistic literature Deconstructing the biblical and Greek works in parallel he argues that there are too many similarities in basic theme meaning and detail for them to be accounted for by coincidence or shared ancient tropes Using this evidence he suggests that although much of the text may originate from the Persian period large parts of its final form likely date from the Hellenistic era With the help of an original introduction and final chapter Gnuse pulls his essays together into a coherent collection for the first time The resultant volume offers a valuable resource for anyone working on the dating of the Hebrew Bible as well as those working on Hellenism in the ancient Levant more broadly **The World, Genesis, and Theology of the Pentateuch** John M. Powell, 2022-03-11 The World Genesis and Theology of the Pentateuch sets its focus on God's redemption of the entire human

race following the entrance of sin into the physical time space i.e. the physical universe physical realm of creation. Redemption didn't begin in the New Testament but in the first book of the Bible called Genesis. As such, God has been reaching out to people through various means, methods, and ways to rebuild the divine and human relationship that became broken by Adam and Eve in the Garden of Eden. Satan understood God's plan to save humanity and never set idly by to watch his purposes unfold in the lives of people. He countered by introducing a false narrative of the origin of people and the universe to all of those willing to believe him and surrender faith in place of what can be explained away or sounds good. The counter narrative to God's inspired message of creation is evolution. It purports teachings by people who reject the creation account in Genesis chapter one. Evolution is therefore populism. It floods the education systems and many other worldly institutions under the disguise of being scientific which is not scientific at all. Other counter narratives extending out of evolution include the evolution of the species and the big bang theory which are two systems that stand in opposition to the Bible. Additional points of emphasis include Redemption began with the fall of humanity in Genesis and was completed in Jesus Christ in the New Testament. It uncovers how redemption began and took shape in beginning stages of human history and how God's plan of redemption became clearer with the personal calling of Abraham through Israel and Moses. The 5 books of Moses called the Pentateuch embody one third of the Hebrew Bible. Old Testament prior to Jesus Christ in the New Testament. Genesis leads the way in God's message to the human race. The ancient Gentile nations that vowed allegiance to other exalted deities apart from God manufactured their own religions, beliefs, literature, and teachings they tied to the deities they revered as divine. Such writings became the nucleus through which the nations viewed the world from the concept of religion, their gods, and the afterlife, and thereby competed with the knowledge of Israel's concepts in the way they viewed the God of Abraham, Isaac, and Jacob. Redemption is not and cannot be found in other forms of worldly wisdom, knowledge, and teaching. But God's concept of people accepting him on the basis of faith in his word mirrors the example of Abraham's faith in the one true God that created all things that exist. John M. Powell PhD ABD

Biblical Interpretation Beyond Historicity Ingrid Hjelm, Thomas Thompson, 2016-01-29. *Biblical Interpretation beyond Historicity* evaluates the new perspectives that have emerged since the crisis over historicity in the 1970s and 80s in the field of biblical scholarship. Several new studies in the field as well as the deconstructive side of literary criticism that emerged from writers such as Derrida and Wittgenstein among others lead biblical scholars today to view the texts of the Bible more as literary narratives than as sources for a history of Israel. Increased interest in archaeological and anthropological studies in writing the history of Palestine and the ancient Near East leads to the need for an evidence-based history of Palestine. This volume analyses the consequences of the question: If the Bible is not history, what is it then? The editors Hjelm and Thompson are members of the Copenhagen School which was formed in the light of this question and the commitment to a new approach to both the history of Palestine and the Bible's place in ancient history. This volume features essays from a range of highly regarded scholars and

is divided into three sections Beyond Historicity which explores alternative historical roles for the Bible Greek Connections which discusses the Bible s context in the Hellenistic world and Reception which explores extra biblical functions of biblical studies Offering a unique gathering of scholars and challenging new theories Biblical Interpretation beyond Historicity is invaluable to students in the field of Biblical and East Mediterranean Studies and is a crucial resource for anyone working on both the archaeology and history of Palestine and the ancient Near East and the religious development of Europe and the Near East

Plato and the Creation of the Hebrew Bible Russell E. Gmirkin, 2016-08-12 Plato and the Creation of the Hebrew Bible for the first time compares the ancient law collections of the Ancient Near East the Greeks and the Pentateuch to determine the legal antecedents for the biblical laws Following on from his 2006 work Berossus and Genesis Manetho and Exodus Gmirkin takes up his theory that the Pentateuch was written around 270 BCE using Greek sources found at the Great Library of Alexandria and applies this to an examination of the biblical law codes A striking number of legal parallels are found between the Pentateuch and Athenian laws and specifically with those found in Plato s Laws of ca 350 BCE Constitutional features in biblical law Athenian law and Plato s Laws also contain close correspondences Several genres of biblical law including the Decalogue are shown to have striking parallels with Greek legal collections and the synthesis of narrative and legal content is shown to be compatible with Greek literature All this evidence points to direct influence from Greek writings especially Plato s Laws on the biblical legal tradition Finally it is argued that the creation of the Hebrew Bible took place according to the program found in Plato s Laws for creating a legally authorized national ethical literature reinforcing the importance of this specific Greek text to the authors of the Torah and Hebrew Bible in the early Hellenistic Era This study offers a fascinating analysis of the background to the Pentateuch and will be of interest not only to biblical scholars but also to students of Plato ancient law and Hellenistic literary traditions

Plato's Timaeus and the Biblical Creation Accounts Russell E. Gmirkin, 2022-05-02 Plato s Timaeus and the Biblical Creation Accounts argues that the creation of the world in Genesis 1 and the story of the first humans in Genesis 2 3 both draw directly on Plato s famous account of the origins of the universe

mortal life and evil containing equal parts science theology and myth This book is the first to systematically compare biblical Ancient Near Eastern and Greek creation accounts and to show that Genesis 1-3 is heavily indebted to Plato's Timaeus and other cosmogonies by Greek natural philosophers It argues that the idea of a monotheistic cosmic god was first introduced in Genesis 1 under the influence of Plato's philosophy and that this cosmic Creator was originally distinct from the lesser terrestrial gods including Yahweh who appear elsewhere in Genesis It shows the use of Plato's Critias the sequel to Timaeus in the stories about the Garden of Eden the intermarriage of the sons of God and the daughters of men and the biblical flood This book confirms the late date and Hellenistic background of Genesis 1-11 drawing on Plato's writings and other Greek sources found at the Great Library of Alexandria This study provides a fascinating approach to Genesis that will interest students and scholars in both biblical and classical studies philosophy and creation narratives

Myths of Exile Anne Katrine Gudme, Ingrid Hjelm, 2015-06-05 The Babylonian exile in 587-539 BCE is frequently presented as the main explanatory factor for the religious and literary developments found in the Hebrew Bible The sheer number of both historical and narrative exiles confirms that the theme of exile is of great importance in the Hebrew Bible However one does not do justice to the topic by restricting it to the exile in Babylon after 587 BCE In recent years it has become clear that there are several discrepancies between biblical and extra biblical sources on invasion and deportation in Palestine in the 1st millennium BCE Such discrepancy confirms that the theme of exile in the Hebrew Bible should not be viewed as an echo of a single traumatic historical event but rather as a literary motif that is repeatedly reworked by biblical authors Myths of Exile challenges the traditional understanding of the Exile as a monolithic historical reality and instead provides a critical and comparative assessment of motifs of estrangement and belonging in the Hebrew Bible and related literature Using selected texts as case studies this book demonstrates how tales of exile and return can be described as a common formative narrative in the literature of the ancient Near East a narrative that has been interpreted and used in various ways depending on the needs and cultural contexts of the interpreting community Myths of Exile is a critical study which forms the basis for a fresh understanding of these exile myths as identity building literary phenomena

The Social Groups behind the Pentateuch Jaeyoung Jeon, 2021-12-19 A reexamination of the Pentateuch in light of the complex social religious and political conflicts of the Persian period During the last several decades scholars in pentateuchal studies have suggested new compositional models to replace the Documentary Hypothesis yet no consensus has emerged The ten essays in this collection advance the discussion by shifting the focus of pentateuchal studies from the literary stratification of different layers of the texts to the social economic religious and political agendas behind them Rather than limiting the focus of their studies to scribal and community groups within Persian Yehud contributors look beyond Yehud to other Judahite communities in the diaspora including Elephantine and the Samaritan community establishing a proper academic context for setting the diverse voices of the Pentateuch as we now understand them Contributors include Olivier Artus Thomas B Dozeman Innocent Himbaza J rg Hutzli Jaeyoung Jeon Itamar Kislev Ndikho Mtshiselwa Dany Noquet Katharina Pyschny Thomas R mer and Konrad Schmid

Out of Exile, not out of Babylon Volker Glissmann, 2019-03-21 Exile and the disruption of the exilic period are prominent features in scholarly reconstructions of what influenced the shaping of biblical books and the development of theological thinking The Babylonian golah community as an exilic community is credited by a growing number of scholars with influencing large parts of the Hebrew Bible This study addresses the question whether the redactions show signs of an exilic mindset first generation exiles or are better understood as a reflection of a diaspora mindset second third and subsequent generations This study also reviews all known archaeological diaspora findings from Mesopotamia in the pre Hellenistic period aided by insights from Elephantine in order to build an as comprehensive as possible picture of Jewish diaspora life in Mesopotamia

The Tradition of Hermes Trismegistus Christian H. Bull, 2018-09-24 In *The Tradition of Hermes Trismegistus* Christian H Bull argues that the treatises attributed to Hermes Trismegistus reflect the spiritual exercises and ritual practices of loosely organized brotherhoods in Egypt These small groups were directed by Egyptian priests educated in the traditional lore of the temples but also conversant with Greek philosophy Such priests who were increasingly dispossessed with the gradual demise of the Egyptian temples could find eager adherents among a Greek speaking audience seeking for the wisdom of the Egyptian Hermes who was widely considered to be an important source for the philosophies of Pythagoras and Plato The volume contains a comprehensive analysis of the myths of Hermes Trismegistus a reevaluation of the Way of Hermes and a contextualization of this ritual tradition

Towards a New History for the Egyptian Old Kingdom Peter Der Manuelian, Thomas Schneider, 2015-10-20 The Pyramid Age represents the first of several highpoints in ancient Egypt's long history But critical questions remain about the period its social structure and economic organization and the long term implications of its artistic achievements On the occasion of the fifth anniversary of the Journal of Egyptian History The University of British Columbia Harvard University and Brill Academic Publishers Boston held a conference at Harvard University on April 26 2012 A distinguished group of Egyptological scholars from around the world gathered to consider new perspectives on the Pyramid Age the results are presented here

After Conversion Mercedes García-Arenal, 2016-09-07 This book examines the religious and ideological consequences of mass conversion in Iberia where Jews and Muslims were forcibly converted or expelled at the end of the XVth century and beginning of the XVIth and in this way it explores the fraught relationship between origins and faith It treats also of the consequences of coercion on intellectual debates and the production of knowledge taking into account how integrating new converts from Judaism and Islam stimulated Christian scholars to confront the converts sacred texts and created a distinctive peninsular hermeneutics The book thus assesses the importance of the Converso problem in issues such as religious

dissidence dissimulation and doubt and skepticism while establishing the process by which religious dissidence came to be categorized as heresy and was identified with converts from Judaism and Islam even when Lutheranism was often in the background
