**The Borders of Subculture** Alexander Dhoest, Steven Malliet, Jacques Haers, Barbara Segaert, 2015-06-05 This book aims to revisit the notion of subculture for the 21st century reinterpreting it and extending its scope On the one hand the notion of resistance is redefined and applied to contemporary practices of cultural production and entrepreneurship On the other hand contributors reconsider the connection of subcultures to everyday culture exploring more mainstream forms of cultural production and consumption across a wider range of social groups As a consequence this book extends the scope to look beyond the white male adolescent urban cultures identified with earlier subcultural studies Contributors also examine fusions and crossovers

**Reconceptualising 'mainstream' youth** Michaela Hráčková, 2014-01-01 Kniha se zabývá tím, jakým způsobem je mainstreamová mládež v České republice prezentována a jaký vliv má tento koncept na budoucí výzkum mládeže v České republice. Zjišťuje, jakým způsobem je mládež prezentována v kvalitativním výzkumu a jakým způsobem je prezentována v kvantitativním výzkumu. Paradox volby a aktivní konformity zvláště u mladých lidí do pozdní moderny a spotřební kultury a společenské identity. Tato kniha slouží jako doplněk i kritika trendů v současné české akademické mládeži. Jen se zaměřuje na marginalizovanou skupinu nebo extrakurkulární skupiny a kultury mládeže. *Religion and Youth* Pink Dandelion, 2016-04-08 What is the future of religion given the responses of young people? What impact do existing religious forms have on youth? What kind of spirituality and religion are young people creating for themselves? It provides a key teaching text in these areas for undergraduates and a book of rigorous scholarship for postgraduates, academics and practitioners. Offering the first comprehensive international perspective on the sociology of youth and religion, this book reveals key geographical and organisational variables as well as the complexities of the engagement between youth and religion. The book is divided into six parts organised around central themes: Generation X and their legacy; The Big Picture: surveys of belief and practice in the USA, UK and Australia; Expression: how young people construct and live out their religion and spirituality; Identity: the role of religion in shaping young people's sense of self and social belonging; Transmission: passing on the faith or not; Researching Youth: Religion debates issues and techniques in researching young people's religion and spirituality. James A. Beckford writes the Foreword and Linda Woodhead the Epilogue. **Punk Rock and the Politics of Place** Jeffrey S. Debes-Carl, 2014-07-17 This book is an ethnographic investigation of punk subculture as well as a treatise on the importance of place as a location with both physical form and cultural meaning. Rather than examining punk as a sound or a style as many previous works have done, it investigates the places that the subculture occupies and the cultural practices tied to those spaces. Since social groups need spaces of their own to practice their way of life, this work relates punk values and practices to the forms of their built environments. As not all social groups have an equal ability to secure their own

spaces the book also explores the strategies punks use to maintain space and what happens when they fail to do so *Rave Culture* Tammy L. Anderson, 2009 It used to be that raves were grassroots organized anti establishment unlicensed all night drug fueled dance parties held in abandoned warehouses or an open field These days you pay 40 for a branded party at popular riverfront nightclubs where age and status rather than DJ expertise and dancing shape your experience In *Rave Culture* sociologist Tammy Anderson explores the dance music drug use and social deviance that are part of the pulsing dynamics of this collective Her ethnographic study compares the Philadelphia rave scene with other rave scenes in London and Ibiza She chronicles how generational change commercialization law enforcement hedonism and genre fragmentation fundamentally altered electronic dance music parties Her analysis calls attention to issues of personal and collective identity in helping to explain such social change and what the decline of the rave scene means for the future of youth culture and electronic dance music *Brains, Media and Politics* Rodolfo Leyva, 2019-11-25 Following the 2007 2008 global financial crisis a number of prominent academics journalists and activists were quick to pronounce the demise of neoliberal capitalism and governance This rather optimistic prediction however underestimated the extent to which neoliberalism has shaped the 21st century world order and become entrenched in our sociopolitical and cognitive fabric Indeed 11 years after the crisis and in spite of the significant levels of socioeconomic inequality psychological distress and environmental destruction generated by neoliberal policies and corresponding business and cultural practices the ideological hegemony of neoliberalism has not been supplanted nor has it really faced any serious unsettling How then has neoliberalism inflected and shaped our common sense understandings of what is politically economically and culturally viable To help answer this question this book combines leading theories from sociology media communication research developmental psychology and cognitive science and draws on primary evidence from a unique mix of ethnographic survey and experimental studies of young people s leisure practices and educational experiences of young adults political socialisation processes in relation to exposure to social networking sites and of the effects of commercial media viewing on material values and support for social welfare In doing so it provides a nuanced and robustly empirically tested account of how the conscious and non conscious cognitive dimensions of people s subjectivities and everyday social practices become interpellated through and reproductive of neoliberal ideology As such this book will appeal to scholars across the social and behavioural sciences with interests in neoliberalism political engagement enculturation social reproduction and media effects **The Bloomsbury Handbook of Popular Music and Youth Culture** Andy Bennett, 2022-12-29 The Bloomsbury Handbook of Popular Music and Youth Culture provides a comprehensive and fully up to date overview of key themes and debates relating to the academic study of popular music and youth culture While this is a highly popular and rapidly expanding field of research there currently exists no single source reference book for those interested in this topic The handbook is comprised of 32 original chapters written by leading authors in the field of popular music and youth culture and covers a range of topics including theory method historical

perspectives genre audience media globalization ageing and generation      **Digital Mediascapes of Transnational Korean Youth Culture** Kyong Yoon, 2019-10-28 Drawing on vivid ethnographic field studies of youth on the transnational move across Seoul Toronto and Vancouver this book examines transnational flows of Korean youth and their digital media practices This book explores how digital media are integrated into various forms of transnational life and imagination focusing on young Koreans and their digital media practices By combining theoretical discussion and in depth empirical analysis the book provides engaging narratives of transnational media fans sojourners and migrants Each chapter illustrates a form of mediascape in which transnational Korean youth culture and digital media are uniquely articulated This perceptive research offers new insights into the transnationalization of youth cultural practices from K pop fandom to smartphone driven storytelling A transnational and ethnographic focus makes this book the first of its kind with an interdisciplinary approach that goes beyond the scope of existing digital media studies youth culture studies and Asian studies It will be essential reading for scholars and students in media studies migration studies popular culture studies and Asian studies
