The inclusion of the rule of four or multiple perspectives: verbal, numerical, algebraic, and graphical, has proven popular with a broad cross section of students. A key supplement for the text are the Lecture Guides. This supplement by the authors with the assistance of Kelly Bails of Parkland College provides instructors with the framework of day by day class activities for each section in the book. Each lecture guide can help instructors make more efficient use of class time and can help keep students focused on active learning. Students who use the lecture guides have the framework of well organized notes that can be completed with the instructor in class.
