Behavior in Public Places Erving Goffman, 2008-06-30 Erving Goffman effectively extends his argument in favor of a diagnosis of deviant behavior which takes account of the whole social situation Behavior in Public Places Erving Goffman, 1974 Collective Violence James F. Short, Jr., Marvin Eugene Wolfgang, Collective violence has played an important role throughout American history though we have typically denied it But it is not enough to repress violence or to suppress our knowledge of it We must understand the phenomenon and to do this we must learn what violent groups are trying to say That at some choose violence tells us something about the perpetrators inevitably about ourselves and the society we have built This collection of provocative contributions addresses theory and research on violence as a group phenomenon The editors were co directors of research for the National Commission on the Causes and Prevention of Violence in the 1960s and many of the contributors to this volume were involved in that research Collective Violence distills their findings as well as takes a later harder look at the forms sources and meanings of riots and rebellion Short and Wolfgang consider the political implications of collective violence especially as it has appeared in the United States The book includes essays on theory comparative analyses based on anthropological and historical data studies of the role of police and other social control agents and summarizes discussions of U S public policy The contributions range from anthropologists descriptions of collective violence in primitive societies to general statements about the nature of collective violence Collective Violence is intended for use in a wide range of courses in sociology anthropology and political science In addition its findings will interest anyone wishing insight into the nature of group violence in American society **Handbuch**

Die Ambivalenz der Gefühle Jochen Kleres, Yvonne Albrecht, 2015-06-10 Grundlegende Pr misse der Soziologie der Emotionen ist es dass Gef hle f r alle Aspekte des Sozialen relevant sind Wenn Emotionen von Individuen und soziale Kontexte in einem Wechselverh ltnis zueinander stehen stellt sich die Frage welche Formen sozialer Verkn pfungen so konstituiert werden Jenseits ihres verbindenden Potentials gilt es dabei insbesondere Ambivalenzen der von Emotionen begr ndeten Sozialit t in den Blick zu nehmen Inkludierende und exkludierende Aspekte von Emotionen k nnen dabei eng miteinander verwoben sein

und sogar Teil ein und derselben sozialen Beziehung ausmachen Diese Perspektive lässt sich auch für transnationale Kontexte nutzbar machen Schließlich gilt es diese Fragen methodologisch für empirische Forschung zu reflektieren Der vorliegende Band zeigt somit eindeutig dass alle Bereiche des gesellschaftlichen Lebens von Emotionen nicht nur grundiert und durchzogen sind sondern dass sie für Gesellschaft vielmehr konstitutiv sind

Handbuch Text und Gespräch Karin Birkner,Nina Janich,2018-09-10 Das Handbuch Text und Gespräch bietet einen Überblick über zentrale Befunde und aktuell relevante Fragestellungen der Text- und Gesprächslinguistik vor dem Hintergrund einer nun über 40-jährigen Forschungstradition. Im Zentrum steht dabei die Frage, in welcher Weise in und mit Texten und Gesprächen Wissen konstituiert, repräsentiert, diskursiv durchgesetzt und vermittelt wird. Dieser Fokus dient unter anderem der Reflexion der Gemeinsamkeiten und Unterschiede zwischen geschriebenen und gesprochenen Texten. Eher allgemeine Überblicksartikel zu Oralität und Literalität zu Text und Gespräch zu Sprechen, Hören und Lesen. Schreiben werden ergänzt durch Perspektiven auf Textverständlichkeit und Text-Bild-Zusammenhänge. Eine Reihe von Beiträgen spricht dem Zusammenhang von Wissensterritorium und Texten/Gesprächen in verschiedenen konkreten Domänen nach: z.B. in Schule, Ausbildung, Wissenschaft, Politik, Organisationen, den helping professions oder der Technischen Dokumentation. Ein weiterer Fokus wird schließlich auf Wissenskonflikte gelegt, darunter Phänomene wie Streit, Missverständen, Normenkonflikte und die Kommunikation von Nichtwissen. Das Handbuch bietet damit nicht nur einen Überblick sondern auch Orientierung über wesentliche Themen einer die Wissensgesellschaft reflektierenden Text- und Gesprächslinguistik.

Encountering Urban Places Lars Frers,2016-04-29 The aesthetics of urban life offer a curious quality one that is both highly visible and hidden, both openly influencing and subtly imprinting. These aesthetics participate in the production of places, to the way they are built, to their resisting materiality, to their image in people's minds, to advertising, and to the way people respond to the place. Exploring the encounter with the aesthetics of images and material design of urban life, this book offers analytic insights into contemporary cities. It shows how photography, maps and videos play a crucial role in bringing aesthetic dimensions into urban studies. This transdisciplinary approach draws on the full spectrum of the visual representation to tie the encounter with the realm of the visual directly and explicitly into the exploration of urban space.

Synagogue Life Samuel C. Heilman,2017-07-05 Via a participant observer approach, Synagogue Life analyzes the three essential dimensions of synagogue life: the houses of prayer, study and assembly. In each, Heilman documents the rich detail of the synagogue experience while articulating the social and cultural drama inherent in them. He illustrates how people come to the synagogue not only for spiritual purposes but also to find out where and how they fit into life in the neighborhood in which they share. In his new introduction, Heilman discusses what led him to write this book and the process of personal transformation through which he, as an Orthodox Jew, had to go in

order to turn a disciplined eye on the world from which he came Rather than using the stranger as native approach of classic anthropology he had instead to begin as a native who discovered how to look at a once taken for granted synagogue life like a stranger In the afterword arguing for the efficacy of this approach Heilman offers guidance on how natives can use their special familiarity and still be trained to distance themselves from their own group making use of the disciplines of sociology and anthropology Synagogue Life offers a fascinating portrait that has something to say to social scientists as well as all those curious about what happens in the main arena of Orthodox Jewish community life

Framing Social Interaction Anders Persson, 2018-07-20 The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9781315582931> has been made available under a Creative Commons Attribution NonCommercial No Derivatives 4.0 license This book is about Erving Goffman's frame analysis as it on the one hand was presented in his 1974 book Frame Analysis and on the other was actually conducted in a number of preceding substantial analyses of different aspects of social interaction such as face work impression management fun in games behavior in public places and stigmatization There was in other words a frame analytic continuity in Goffman's work In an article published after his death in 1982 Goffman also maintained that he throughout his career had been studying the same object the interaction order In this book the author states that Goffman also applied an overarching perspective on social interaction the dynamic relation between ritualization vulnerability and working consensus However there were also cracks in Goffman's work and one is shown here with reference to the leading question in Frame Analysis what is it that's going on here While framed on a microsocial level that question ties in with the interaction order and frame analysis as a method If however it is framed on a societal level it mirrors metareflective and metasocial manifestations of changes and unrest in the interaction order that in some ways herald the emphasis on contingency uncertainty and risk in later sociology Through

analyses of social media as a possible new interaction order where frame disputes are frequent and of interactional power the applicability of Goffman's frame analysis is illustrated As such this book will appeal to scholars and students of social theory classical sociology and social interaction
