The Language of Colour in the Bible Lourdes García Ureña,Emanuela Valeriani,Anna Angelini,Carlos Santos Carretero,Marina Salvador Gimeno,2022-04-19 The Bible is one of the books that has aroused the most interest throughout history to the present day However there is one topic that has mostly been neglected and which today constitutes one of the most emblematic elements of the visual culture in which we live immersed the language of colour Colour is present in the biblical text from its beginning to its end but it has hardly been studied and we appear to have forgotten that the detailed study of the colour terms in the Bible is essential to understanding the use and symbolism that the language of colour has acquired in the literature that has forged European culture and art The objective of the present study is to provide the modern reader with the meaning of colour terms of the lexical families related to the green tonality in order to determine whether they denote only color and if so what is the coloration expressed or whether together with the chromatic denotation another reality inseparable from colour underlies along with the chromatic denotation there is another underlying reality that

is inseparable from colour We will study the symbolism that which underpins some of these colour terms and which European culture has inherited This lexicographical study requires a methodology that allows us to approach colour not in accordance with our modern and abstract concept of colour but with the concept of the ancient civilisations This is why the concept of colour that emerges from each of the versions of the Bible is studied and compared with that found in theoretical reflection in both Greek and Latin Colour thus emerges as a concrete reality visible on the surface of objects reflecting in many cases not an intrinsic quality but their state This concept has a reflection in the biblical languages since the terms of colour always describe an entity in this sense one can say that they are embodied and include within them a wide chromatic spectrum that is they are mostly polysemic Structuralism through the componential analysis although providing interesting contributions had at the same time serious shortcomings when it came to the study of colour These were addressed through the theoretical framework provided by cognitive linguistics and some of its tools such as cognitive domains metonymy and metaphor Our study then is one of the first to apply some of the contributions of cognitive linguistics to lexicography in general and particularly with reference to the Hebrew Greek and Latin versions of the Bible A further novel contribution of this research is that the meaning is expressed through a definition and not through a list of possible colour terms as happens in dictionaries or in studies referring to colour in antiquity The definition allows us to delve deeper and discover new nuances that enrich the understanding of colour in the three great civilisations involved in our study Israel Greece and Rome

La traducción, factor de cambio María José Hernández Guerrero, 2008 La traducción ha sido un factor histórico de considerable peso en la evolución de los más diversos campos de actuación humana En efecto la traducción se ha concebido en algunas ocasiones como movimiento iniciador de una transformación En otras ha supuesto un impulso real para la renovación la ruptura o la reacción en política ideológica o evolución estética En cualquier momento y situación histórica la visión del mundo se ha nutrido en gran medida de textos traducidos En esta obra se ofrecen diferentes perspectivas de cómo se ha producido esa influencia de la traducción en el desarrollo de ámbitos tan dispares como la difusión de ideas políticas revolucionarias la configuración de la alteridad los trasvases culturales en los medios de comunicación la canonización de las novedades literarias o la reinterpretación de los textos sagrados

La (in)visibilización de la violencia contra las mujeres en la Biblia Lucía Riba, 2021-05-18 Este libro trata sobre la violencia contra las mujeres como un tipo específico de la violencia de género que se ejerce sobre ellas por el solo hecho de ser mujeres Focaliza en su invisibilización visibilización Muchas veces esa violencia se tolera y expresa en discursos que reflejan una conciencia androcéntrica patriarcal justificada sustentada e incentivada desde las religiones fundándose en libros considerados sagrados por ende con autoridad divina Uno de estos es la Biblia judeo cristiana De allí el interés por investigar cómo aparece en sus escritos aquella problemática Analizando estudios exegéticos sobre el relato de Jueces 19-21 que narra el crimen de la concubina del levita se hace un ejercicio de hermenéutica de la hermenéutica ofreciendo un panorama actualizado de análisis exegéticos de este relato bíblico evidenciando cómo distintos posicionamientos hermenéuticos de género suponen lecturas diversas y hasta opuestas de un mismo texto Esta investigación se realiza en la frontera entre los estudios de género y los estudios teológicos bíblicos lo que lleva a indagar también en algunos estudios de la religión Se realiza un camino de ida y vuelta desde la teología hacia los estudios de género y los feminismos y desde los estudios de género y los feminismos hacia la teología tanto en su faz teórica como en la faz política Permear las fronteras entre esos dos ámbitos fue uno de los objetivos primordiales de este estudio en orden a favorecer el beneficio mutuo en la medida que dichos ámbitos se encuentran se desafían se cuestionan se entrecruzan *Textos fuente y contextuales de la narrativa evangélica* Pérez Fernández,
