Methods to encourage and develop group dynamics are clearly outlined. For any secondary school considering introducing circle time, this book makes a good case in its favour. Youth in Mind Includes CD Rom. The circle time teaching strategy is used extensively and successfully in primary schools, but secondary settings often find it difficult to implement. In this book, the authors advise on how a circle time programme can be developed in secondary schools involving both staff and students. Drawing on their experience of using circle time to deliver the PSHE and Citizenship curricula, they present a framework that can be followed or adapted by other secondary schools. The development includes consultation with students, choosing the topics for the programme, of study, lesson plans written in the circle format, recommendation for links within the wider school community and other agencies. A CD rom is included providing lesson plans, circle time games and advice on inclusion, group work and strategies and approaches suitable for the secondary setting. The book also shows how the programme can be evaluated, taking into account the perspectives of the trainer, the staff and the students. Any secondary school practitioner looking to implement a circle time programme in their school will find this a useful and practical resource. Marilyn Tew is a freelance consultant, trainer and facilitator specialising in the relevance of group work, emotional literacy and Circle Time to PSHE.
