Detour My Bipolar Road Trip In 4 D:

Detour Lizzie Simon, 2003-06-18 In the fall of 1999 23 year old Simon hit the road on a journey that took her across the United States Her inspired interviews with other young men and women suffering from manic depression comprise the heart and soul of this remarkable memoir

Goodbye Mom George Staursky, 2004-11 This book is not a biography about a man but rather it is about a Journey This is a Journey through life with this illness Bipolar Disorder and all the dynamics that go along with it This book shows how a man faced the consequences of this disease and all its pain bigotry and anguish but this journey also shows how he defeated the disease This is a book of his Journey through trauma tragedy and recovery This book is a riveting account of that journey It includes others who have suffered the indignities of this illness It brings to life an account of a story that could be written by many different people over time Destroying a life to save the same life could be construed by many as an oxymoron However in this case it fits the scenario perfectly As in the story of Dr Jekyll and Mr Hyde there had to be destruction of one s inner self to save everyone from the inner demons plaguing Dr Jekyll

Strictly Bipolar Darian Leader, 2013-05-02 Strictly Bipolar is Darian Leader s treatise on the psychological disorder of our times If the post war period was called the Age of Anxiety and the 1980s and 90s the Antidepressant Era we now live in Bipolar times Mood stabilising medication is routinely prescribed to adults and children alike with child prescriptions this decade increasing by 400% and overall diagnoses by 4000% What could explain this explosion of bipolarity Is it a legitimate diagnosis or the result of Big Pharma marketing Exploring these questions Darian Leader challenges the rise of bipolar as a catch all solution to complex problems and argues that we need to rethink the highs and lows of mania and depression What he asks do these experiences have to do with love guilt and rage Why the spending sprees and the intense feeling of connection with the world Why the confidence the self esteem and the sense of a bright future that can so swiftly turn into despair and dejection Only by looking at these questions in a new way will we be able to understand and help the person caught between feelings that can be so terrifying and so exhilarating so life affirming yet also so lethal Strictly Bipolar is essential reading for anyone interested in contemporary views of the self bipolarity and a deeper understanding of manic depression Praise for Strictly Bipolar A beautifully thoughtful understanding not just of highs and lows mania and depression but of why and how these mechanisms work in our minds and bodies and how the human subject is coerced today to embrace a culture of bipolarity

Susie Orbach A timely book Darian Leader s thoughts are more fixated strong arm interesting more humane and more persuasive than the profit coercion of the madness industry Instead of the shoddy reasoning that leads to wrong treatment and over treatment he offers illumination and insight his book is a contribution to a debate but it could also change lives Hilary Mantel Darian Leader is a psychoanalyst practising in London and a member of the Centre for Freudian Analysis and Research and of the College of Psychoanalysts UK He is the author of What is Madness The New Black Why do women write more letters than they post Promises lovers make when it gets late Freud s Footnotes and Stealing the Mona

Hermsen,2011-11-22 From its first depictions in ancient medical literature to contemporary depictions in brain imaging mania has been largely associated with its Greek roots to rage Prior to the nineteenth century mania was used interchangeably with madness Although its meanings shifted over time the word remained layered with the type of madness first century writers described rage fury frenzy Even now the mental illness we

known as bipolar disorder describes conditions of extreme irritability, inflated grandiosity and excessive impulsivity. Spanning several centuries, *Manic Minds* traces the multiple ways in which the word mania has been used by popular medical and academic writers. It reveals why the rhetorical history of the word is key to appreciating descriptions and meanings of the manic episode. Lisa M. Hermesen examines the way medical professionals analyzed the manic condition during the nineteenth and twentieth centuries and offers the first in-depth analysis of contemporary manic autobiographies by bipolar figures who have written from within the illness itself.

While most people are familiar with the terms manic depressive and BP there remains a lack of real understanding about the illness and many sufferers and their families can feel helpless alone and misunderstood. **Spin Between Never and Ever** Shannon C. Flynn, 2010-10-26 I hunched at my school desk seventeen and slipping into an abyss whose shadow I had barely glimpsed before. My left hand shook with free associations in a spatter of words that galloped through my head and outside the margins of lined notebook paper. Dark. It's so dark like it was night even though it's 8:00 in the morning. Warning. Everything's going to fall apart. My heart will break and take away everything. My mind is fading fast. Fast. Vast emptiness. Oh help. The universe is coming to get me. I whirled and then faded dead inside into a suffocating fog. Speaking of dead that was all I wanted. Well it wasn't that I wanted to die. I had to. I needed to escape the tumult that was exhausting my emotional and physical resources. And I had to die because I deserved to. Because I was evil. I knew that I had transformed absolutely into a rotten core. I had recently discovered this one horrifying night when it became clear as I raced around my bedroom that I was the reincarnation of Judas Iscariot betrayer of Jesus. And I would plunge to Hell like he had so why shouldn't I kill myself now to get it over with. Especially since I only burdened everyone around me. My family and friends would rejoice once I was dead. These thoughts progressed to the point that I could no longer touch anyone in order that I not contaminate them with my toxic essence. Then I could no longer allow my fingers or limbs to touch each other because somehow this was evil too. Soon God no longer permitted me to eat or sleep because I was such a monstrosity. I stopped showering and changing clothes almost stopped speaking. No longer able to attend high school I shrunk my days to mere huddling on a chair in our living room guarded by my parents and siblings in shifts. Every moment I could snatch to myself I punched holes in my wrist with a safety pin hidden in my sleeve. One afternoon

left alone for a minute I crept furtively to the top of the second floor flight of stairs about to hurl myself down them until I was discovered and tugged back downstairs held tightly by the hand Finally my mind and body were so clamped down by dark gravity that I was no longer able to hurt myself One day I simply goggled at the unfamiliar face in our cold bathroom mirror Who is that Im not me anymore Im an alien I decided Someone or something has stolen my identity and taken me over Well it can have me I surrender because I am worth nothing anyway So nothing matters I certainly dont matter During those gray hours days and months my mind cramped into nothing but ruminations of worthlessness and I didnt matter to myself at all Luckily of course to my parents and brothers and sisters I did matter very much Even if they puzzled over what was happening to me as much as I did they intuited my distress and incapacitization and got me help My family brought me to a psychiatric hospital where I stayed for a month I was diagnosed with depression with psychotic features and given antidepressants and an antipsychotic While in the hospital I discovered art therapy and painted surreal abstracts and wrote long narrative poems about my depression and recovery And recover I did into the blessed contentment of feeling like myself again a brighter happier self at that Now armed with a name for what ailed me I consumed volumes about depression and bipolar disorder I devoured books and articles about psychotropic medications and art therapy and theories of psychiatric rehabilitation and mood charting and the consumer movement I discovered Kay Redfield Jamison Ph D who became a role model and pored over her memoir *An Unquiet Mind* and *Manic Depressive Illness* the authoritative text on bipolar disorder that Jamison wrote with Frederick Goodwin MD I involved myself with one of the nations leading mental health advocacy organizations the National Alliance on Mental Illness abbreviated as NAMI and later assumed a lead
