Designing Better Maps A Guide For Gis Users:

Designing Better Maps Cynthia A. Brewer, 2005 Describing how to build balanced map layouts suited to varied mapping goals this guide focuses on export options that suit different media and can be edited in other applications The wide range of text characteristics needed for expert map design as well as how to improve map readability with type effects such as character spacing leading callouts shadows and halos is detailed Tips are included for using font tools in the Windows operating system such as creating special characters in map text as is information on using text characteristics to indicate feature locations categories and hierarchies on maps How cartographic conventions guide placement of labels for point line and area features are also explained *Designed Maps* Cynthia A. Brewer, 2008 This sequel to the highly successful *Designing Maps* offers a graphics intensive presentation of published maps providing cartographic examples that GIS users can then adapt for their own needs Each chapter characterizes a common design decision and includes a demonstration map which is annotated with specific information needed to reproduce the design such as text fonts sizes and styles line weights colors and patterns marker symbol fonts sizes and colors and fill colors and patterns Visual hierarchies and the purpose of each map are considered with the audience in mind drawing a clear connection between intent and design The book also includes a valuable task index that explains what ArcGIS 9 tools to use for desired cartographic effects From experienced cartographers to those who make GIS maps only occasionally all GIS users will find this book to be an indispensable resource
