Borrowers' characteristics and their impact on repayment behaviour in Sri Lanka. An application of discriminant and logistic models Aruppillai Thayaparan, B. Sivatharshika, 2019-12-18 Document from the year 2019 in the subject Business economics Investment and Finance course ECONOMICS language English abstract The main objective of the study is to identify the borrower characteristics that discriminate them into defaulters and non defaulters and examine the determinants of loan repayment and their credit worthiness in Microfinance institutions in Vavuniya district in Sri Lanka In line with above general objective this study has the following specific objectives To identify the borrower characters those classify them into defaulters and non defaulters in the study area To evaluate the impact of major demographic characters such as age gender levels of education civil status and family members of the borrowers that impact on their repayment performance and credit worthiness To investigate how the farming characters like income farm size ownership of land farming experience and availability of non farm income as well as farmers attributes such as purposes of loan crop failure weather conditions and knowledge about loans affect loan repayment and discriminate the borrowers into two groups in the

study area Financial institutions and banks have major role in financial sector as well as rural sector of an economy in terms of providing loans to the rural community in developing countries like Sri Lanka The borrowers especially farmers are able to get the loans from the microfinance institutions to improve their living standard through agricultural activities and generate their income Even the borrowers have chances to receive the loans the microfinance institutions and banks are facing the problems to recover the loans from the borrowers Thus default rate among the borrowers has been increasing over time which is the difficult task to manage the banks and financial institutions There are a number of many factors particularly demographic and farming characters that affect the loan repayment rates There has not been any empirical research conducted regarding to repayment performance among the borrowers who get the loans from SANASA Thrift Credit and Cooperative Society TCCS banks in Vavuniya district Therefore this study tries to provide the relevant information for a better understanding on the determinants of loan repayment performance of the borrowers and the information will be useful for policy makers other lending institutions and stakeholders for their future decision making on granting the loans for their clients

Determinants of Loan Repayment Performance Among Borrowers of Microfinance Institutions Seyedmehrdad Mirpourian, 2015 This paper investigates the repayment behavior of borrowers of a nonprofit Indian microfinance institution Indian Institute for Mother and Child using a novel data set comprising approximately 20 000 installment records within the period April 2009 November 2012 Controlling for context variables the influence of loan limit loan size and business activity on loan repayment is investigated Empirical results show that the repayment rate improves as borrowers get closer to the loan limit which is the maximum available loan While no statistically significant difference across different types of business activities is identified the main result hints at a relevant role played by motivational effects in fostering the probability to fully and timely repay a loan

Financial Determinants of SME Activity in Developing Countries Piotr Łasak, 2022-01-01 **PURPOSE** The traditional sources of financing bank loans cannot be treated as an essential source of financing for SMEs in developing countries For this reason this group of entities uses many alternative sources from bootstrapping to microfinance and crowdfunding During the last decade a significant contribution in this area has been done by financial technology The purpose of this study is threefold 1 to present the role of financial technologies in financing SMEs 2 to examine the role of entities based on financial technology in financing SMEs in developing countries and 3 to consider other non bank aspects of financing SMEs leading to the improvement of the financial situation of these entities The in depth analysis of these entrepreneurial finance practices will be developed in the following papers presented in this Issue **METHODOLOGY** This study employs a theoretical approach based on a narrative literature review The primary attention is focused on applying financial technology as a stimulant for the finance of SMEs in developing countries **FINDINGS** As a consequence of the financing gap for SMEs within the traditional financial system these entities use non bank financing based on financial technology The research confirms that financial technology plays a crucial role in fostering the financial

situation of SMEs in developing countries and providing greater financial inclusion for these entities Both financial technology and enterprises based on this technology contribute significantly to the improvement of efficiency of financing SMEs in emerging markets They also provide a broader range of services than were offered by the traditional financial sector Regarding the other aspects of SME finance it is essential to implement such ways of financing like microfinance services and crowdfunding Such funding mechanisms together with the budget process and the compliance under the conditions of e tax systems are important determinants of current entrepreneurial finance IMPLICATIONS The paper describes the financing of SMEs in developing countries The in depth picture of the SME s financial situation focusing on the technological development in this area provides essential insight into this still poorly explored area It also offers important premises for shaping the post pandemic policy to support their further growth ORIGINALITY VALUE Despite growing theoretical and empirical literature about entrepreneurial finance this study aims to contribute to the role of financial technology in this area The impact of financial technologies and the role of fintech based entities on SME activity in developing countries are still poorly researched Moreover the research provides a brief overview of other SME funding sources and their determinants in this group of countries
