Diocesan Pastoral Administration Of The Roman Catholic:

Receptive Ecumenism and the Call to Catholic Learning Paul Murray, 2010-05-06 This volume proposes a fresh strategy for ecumenical engagement Receptive Ecumenism that is fitted to the challenges of the contemporary context and has already been internationally recognised as making a distinctive and important new contribution to ecumenical thought and practice Beyond this the volume tests and illustrates this proposal by examining what Roman Catholicism in particular might fruitfully learn from its ecumenical others Challenging the tendency for ecumenical studies to ask whether explicitly or implicitly What do our others need to learn from us this volume presents a radical challenge to see ecumenism move forward into action by highlighting the opposite question What can we learn with integrity from our others This approach is not simply ecumenism as shared mission or ecumenism as problem solving and incremental agreement but ecumenism as a vital long term programme of individual communal and structural conversion driven like the Gospel that inspires it by the promise of conversion into greater life and flourishing The aim is for the Christian traditions to become more not less than they currently are by learning from or receiving of each other s gifts The 32 original essays that have been written for this unique volume explore these issues from a wide variety of denominational and disciplinary perspectives drawing together ecclesiologists professional ecumenists sociologists psychologists and organizational experts *Practices of Dialogue in the Roman Catholic Church* Bradford E. Coriden, 2004-01-09 Catholic canon law changes very slowly but it constantly adds rules interpretations and applications Some canons are frequently invoked and others rarely used quietly pass from memory In the dozen or so years since this introduction to canon law was first written there have been many changes and adaptations This is one reason for a revised edition although many of the alterations are too subtle to be captured in an introductory treatment A second reason is to include some of the many new resources commentaries and explanations which authorities in the field have made available Since many have found the original book helpful in beginning their exploration of the church s regulations a fact which gratifies its author greatly it is worth improving Hence many sections have been clarified expanded and updated and some others deleted In a few places the material is reordered Seven new case studies have been added These improvements are a third reason for revision Context of recent scandal has revealed inadequate applications of canon law Serious canonical crimes were often treated as personnel problems calling for repentance therapy and reassignment rather than the investigation and imposition of penalties which the canons prescribe Would a more careful observance of the traditional canonical system have saved many young people from serious harm and the church from an immense disgrace The question

provides one more incentive to begin to learn about canon law **New Commentary on the Code of Canon Law** John P. Beal, James A. Coriden, Thomas Joseph Green, 2000 An entirely new and comprehensive commentary by canon lawyers from North America and Europe with a revised English translation of the code Reflects the enormous developments in canon law since the publication of the original commentary **Christian Law** Norman Doe, 2013-09-12 Christian Law Contemporary Principles offers a detailed comparison of the laws of churches across ten distinct Christian traditions worldwide Catholic Orthodox Anglican Lutheran Methodist Reformed Presbyterian United Congregational and Baptist From this comparison Professor Doe proposes that all denominations of the faith share common principles in spite of their doctrinal divisions and that these principles reveal a concept of Christian law and contribute to a theological understanding of global Christian identity Adopting a unique interdisciplinary approach the book provides comprehensive coverage on the sources and purposes of church law the faithful lay and ordained the institutions of church governance discipline and dispute resolution doctrine and worship the rites of passage ecumenism property and finance as well as church State and society This is an invaluable resource for lawyers and theologians who are engaged in ecumenical and interfaith dialogue showing how dogmas may divide but laws link Christians across traditions March's Thesaurus Dictionary Francis Andrew March, 1925

Law, Liberty and Church Dr Gordon Arthur, 2013-05-28

Law, Liberty and Church examines the presuppositions that underlie authority in the five largest Churches in England: the Church of England, the Roman Catholic Church, the Methodist Church, the United Reformed Church and the Baptist Union. Examining what has influenced their development and how the patterns of authority that exist today have evolved, Gordon Arthur explores the contributions of Scripture, Roman Legal Theory and Greek Philosophy. This book shows how the influence of Roman legal theory has caused inflexibility and at times authoritarianism in the Roman Catholic Church; it explores how the influence of reason and moderation has led the Church of England to focus on inclusiveness, often at the cost of clarity; it expounds the attempts of the Free Churches to establish liberty of conscience, leading them at times to a more democratic and individualistic approach. Finally, Arthur offers an alternative view of authority and sets out some of the challenges this view presents to the Churches.

Religious Organizations and Democratization Deborah A. Brown, Tun-jen Cheng, 2005-11-15

Since the terrorist attacks on 9/11, the political roles of religious institutions and groups have captured international attention. This book examines how religious institutions and organizations in various Asian countries are influencing democratic development and the shaping of government policies. Religious Organizations and Democratization covers Taiwan, Hong Kong, Mainland China, Korea, Thailand, the Philippines, Malaysia, Indonesia and Japan. The chapters specifically address the

engagement of Christian Buddhist Muslim and other religious organizations in the advancement and or hindrance of democratization in the region The contributors consider such questions as Why have some religious organizations played a decisive role in democratic transitions while others remained politically dormant and other still acted in conservative alliances to block democratic development Why did some religious organizations that once were active and instrumental to democratic change lose their political vitality as soon as civil liberties were successfully introduced And why did other religious organizations irrespective of their roles in the process of democratic transition emerge as key political forces in the civil society
