Divergent Thinking Training Program Day One:

Active Learning Olena Lutsenko, Gregory Lutsenko, 2022-02-09 In the context of globalization changes in educational systems it is important to modify approaches to the educational process and introduce learning technologies that allow for maximum involvement in learning One such technology is the technology of active learning which engages learners through participation in the cognitive process and certain tasks as well as through the collective activities of the subjects of the educational process This book discusses the theoretical analysis of active learning and contains practical recommendations for its implementation Research in Education ,1974 **Resources in Education** ,1992 Serves as an index to Eric reports microform The International Handbook on Innovation Larisa V Shavinina, 2003-10-16 The breadth of this work will allow the reader to acquire a comprehensive and panoramic picture of the nature of innovation within a single handbook

Conference Proceedings. The Future of Education Pixel, 2017 Engaging Higher Education Teachers and Students With Transnational Leadership Morris, Gareth Richard, Kozuch, Shayna, 2024-04-26 Higher education is at a crossroads facing unprecedented challenges threatening its traditional models and practices The COVID 19 pandemic coupled with shifts towards self reliance and restricted student mobility has created a dichotomy of factors impacting the sector Institutions must find new ways to attract students and remain competitive in a rapidly changing landscape Additionally leaders and managers are grappling with issues such as employee wellbeing digital transformation and the need to foster a culture of learning and diversity Engaging Higher Education Teachers and Students With Transnational Leadership provides a comprehensive roadmap for navigating the future of higher education from a leadership and management perspective Drawing on real world examples and concrete advice it offers insights into critical topics such as employee wellbeing AI digital transformation and student engagement The book equips leaders and managers with the tools they need to adapt and thrive in uncertainty by exploring new education models institutional governance and the impact of new technologies **Innovation, Strategy and Risk in Construction** Martin Loosemore, 2013-12-04 Innovation Strategy and Risk in Construction integrates insights from business and government leaders with contemporary research to help built environment professionals turn serendipity to their own advantage by building greater innovative and adaptive capacity into their operations Accessible and full of practical examples the book argues that traditional business strategies which seek to systematise innovation and eliminate uncertainty need to be balanced with more flexible approaches which acknowledge and harness uncertainty The missing key to innovation it is argued is to turn serendipity into capability The author proposes a simple model which allows managers to tap into the increasingly dynamic and interconnected nature of the construction industry Innovation does not occur in isolation within individual firms but through collaboration Each stakeholder in the construction industry has a responsibility to drive innovation and this book will be key reading for consultants contractors subcontractors suppliers and clients as well as policy makers and all serious students of construction management
