Broken Butterfly Karin Finell, 2012-10-01 It all began with the bite of a mosquito Yes with a bite of this pesky but seemingly so innocuous little insect that had been sucking her blood Not just one but hundreds had punctured her arms and legs with red marks which later swelled to small welts Who would ever have thought that our family s life would become derailed that its tightly woven fabric would eventually fray and break all from the bite of a mosquito In November of 1970 the Finell family s lives were changed forever by a family vacation to Acapulco Seven year old Stephanie fell ill soon after their return to the United States but her mother Karin thinking it was an intestinal disorder kept her home from school for a few days She was completely unprepared when Stephanie went into violent convulsions on a Friday morning Following a series of tests at the hospital doctors concluded she had contracted viral equine encephalitis while in Mexico After a string of massive seizures one leading to

cardiac arrest Stephanie fell into a six week coma When she awoke her world had changed from predictable and comforting to one where the ground was shaking Due to the swelling of her brain from encephalitis she suffered serious brain damage Doctors saw little hope of recovery for Stephanie and encouraged her parents to place her in an institution but they refused In *Broken Butterfly* Karin Finell recounts the struggles faced by both her and her daughter as well as the small victories won over the ensuing years Little was known about brain injuries during that time and Karin was forced to improvise relying on her instincts to treat Stephanie Despite the toll on the family alcoholism divorce and estrangement Karin never gave up hope for Stephanie s recovery By chance Karin heard of the Marianne Frostig Center of Educational Therapy where Dr Frostig herself took over the reprogramming of Stephanie s brain This in time led her to regain her speech and some motor skills Unfortunately Stephanie s intermittent seizures hung like the proverbial Sword of Damocles over their lives And while Stephanie grew into a lovely young woman her lack of judgment resulting from her injury led her into situations of great danger that required Karin to rescue her Karin s love for her daughter guided her to allow Stephanie to fill her life with as many positive experiences as possible Stephanie learned and matured through travel and exposure to music and plays acquiring a knowledge she could not learn from books Stephanie wished above all to teach other brain injured individuals to never look down on themselves but to live their lives to the fullest Through Stephanie s story her mother has found a way to share that optimism and her lessons with the world

policy planning and management and pinpoints both long standing and emerging barriers to sustainable practice Featuring numerous case studies the book provides critical insights into the diverse socio cultural political economic and ecological contexts of this global industry highlighting the challenges and opportunities that arise along the pathways to sustainability

Programs, 1990 **Voices in the Ocean** Susan Casey, 2015-09-03 Humans and dolphins have a unique bond We know that dolphins are highly intelligent intensely sociable beings who recognize their own reflections introduce themselves by name form close friendships communicate constantly feel despondent rescue one another and humans deduce infer throw tantrums gossip joke and scheme Many who have swum with them describe the experience as life changing They are heralded as magical creatures and yet we force them into starring roles at theme parks trade them on the black market and put them to slaughter Voices in the Ocean is at once a celebration of these beloved animals and a devastating chronicle of the damage wrought when human and dolphin worlds meet Through Casey's illuminating portrayal of these beguiling creatures we encounter the best and worst of ourselves *Justified Anger* Jennifer Colne, 2015-06-19 A mother's story of how historic child sexual abuse can affect the lives of the victims It shows the determination of a mother fighting the system and seeking justice How she loses so much but through her strength and tenacity she faces the inevitable She supports her children at their time of need When the trauma was buried deep within their subconscious behaviour presents itself in an irrational manner Being naive to this situation and not believing this could happen to her family she has to learn fast in order to understand self harm and suicidal thoughts The people she meets along the way help show her the path that can lead to a better understanding of why and how things must take their course She learned through heartache how other people's feelings can be transmitted in a totally different aspect to the truth Family and friends find it difficult to believe others don't wish to be involved At times the subject is taboo and it also shows the stigma towards mental health This book is written to help others recognise when a young victim conceals the emotional pain and the conscious mind of the adult is terrified of acknowledging the abuse
