Research in Education ,1973 **The Collaborative Economy and EU Law** Vassilis Hatzopoulos,2018-02-22 Disruptive innovation the fourth industrial revolution one of the ten ideas that will change the world the collaborative sharing economy is shaking existing norms It poses unprecedented challenges in terms of both material policies and governance in almost all aspects of EU law This book explores the application or indeed inadequacy of existing EU rules in the context of the collaborative economy It analyses the novelties introduced by the collaborative economy and discusses the specific regulatory needs and instruments employed therein most notably self regulation Further it aims to elucidate the legal status of the parties involved traders consumers prosumers in these multi sided economies and their respective roles in the provision of services especially with regard to liability issues Moreover it delves into a sector specific examination of the relevant EU rules especially on data protection competition consumer protection and labour law and comments on the uncertainties and lacunae produced therein It concludes with the acute question of whether fresh EU regulation would be necessary to avoid fragmentation or on the contrary if such regulation would create unnecessary burdens and stifle innovation Taking a broad perspective and pragmatic view the book provides a comprehensive overview of the collaborative economy in the context of the EU legal landscape *The Law School Buzz Book* Vault Editors,2006-02-07 In this new edition Vault publishes the entire surveys of current students and alumni at more than 100 top law schools Each 4 to 5 page entry is composed of insider comments from students and alumni as well as the school s responses to the comments

Corporate Environmental Responsibility Neil Gunningham,2017-03-02 Traditionally industry has been accused of sacrificing sustainable development in the pursuit of short term profit Yet today

under the banner of Corporate Environmental Responsibility CER a growing number of business organizations are claiming to be part of the solution rather than part of the problem So what is this emerging phenomenon of CER and what does it aspire to achieve How pervasive is it and what are its implications for both business and the environment This collection of essential articles and papers maps the development of the CER concept traces the principal debates concerning its contribution to environmental protection assesses the evidence as to what extent corporations are seeking to do well be doing good and explains why some companies have gone down this path when others similarly situated have been unwilling to do so In essence it asks what has CER accomplished what can it accomplish and what is beyond its reach
