

Distributive Property Word Problems

The **distributive property** is a tool to make multiplication with larger numbers easier.

To use the distributive property:
Break one factor into two addends,
multiply both addends by the other
factor, and add together both products.

Break up
the bigger
number
into two
addends.

$$\begin{aligned}16 \times 5 \\ (10 + 6) \times 5 \\ (10 \times 5) + (6 \times 5) \\ 50 + 30 = 80\end{aligned}$$

$$16 \times 5 = 80$$

Directions: Solve each problem below using the distributive property. Show your work.

Ben Curran, 2015-09-25 In today's high stakes world ready made lessons and teacher's guides are no longer enough to guarantee achievement. The best way to help students succeed is through deliberate and careful lesson planning focused on the end result of increasing student achievement. Whether you are a new teacher or an experienced educator this book will help you get started by providing a practical step by step guide to designing lessons that will lead to student mastery of any objective. You'll learn the essential components of lessons that are Common Core aligned and grounded in best practices. Topics include Tailoring your lessons to meet your state standards while ensuring high student achievement. Writing a strong objective to stay focused on the goal of a lesson. Creating an end of lesson assessment to gauge the lesson's success. Constructing a lesson plan that combines direct instruction, guided practice and independent practice. Along the way you'll find plenty of helpful examples from math and English Language Arts. You'll also find end of chapter FAQs and activities to try to help you make these concepts a reality for your own classroom. Many of the tools from the book are also available as free downloads from our website www.routledge.com/books/details/9781138838871 **Barron's Early Achiever: Grade 3 Math Workbook Activities & Practice** Barron's Educational Series, 2022-11 Barron's early achiever workbooks provide a hands on learning experience tailored to grade level skills. Multiple step by step problem solving exercises **The Math Teacher's Problem-a-Day, Grades 4-8** Judith A. Muschla, Gary R. Muschla, 2008-04-11 From bestselling authors Judith and Gary Muschla, *The Math Teacher's Problem a Day* is a hands on resource containing 180 handy worksheets, one for each day of the school year, to help students in grades 4-8 acquire the skills needed to master mathematics. These reproducible worksheets are perfect for sponge activities, five minute challenges to start or end a class period, that can also be used as supplemental lessons, homework or extra credit. With problems based on the Standards and Focal Points of the National Council of Teachers of Mathematics, the book is designed to give students valuable practice in math skills using specific activities to enhance critical thinking and boost test scores. The topics covered focus on the core math concepts and skills required for middle school students, including Numbers and Operations, Algebra, Geometry, Measurement, Data Analysis. Part of the 5 Minute Fundamentals series, *The Math Teacher's Problem a Day* is an important resource that will help today's students understand more concepts, make connections between branches of mathematics, and apply math skills to a variety of real life problems Teaching Early Algebra through Example-Based Problem Solving Meixia Ding, 2021-04-08 Drawing on rich classroom observations of educators teaching in China and the U.S., this book details an innovative and effective approach to teaching algebra at the elementary level, namely teaching through example-based problem solving. TEPS Recognizing young children's particular cognitive and developmental capabilities, this book powerfully argues for the importance of infusing algebraic thinking into early grade mathematics teaching and illustrates how this has

been achieved by teachers in U S and Chinese contexts Documenting best practice and students responses to example based instruction the text demonstrates that this TEPS approach which involves the use of worked examples representations and deep questions helps students learn and master fundamental mathematical ideas making it highly effective in developing algebraic readiness and mathematical understanding This text will benefit post graduate students researchers and academics in the fields of mathematics STEM and elementary education as well as algebra research more broadly Those interested in teacher education classroom practice and developmental and cognitive psychology will also find this volume of interest
