LOVE THE REASON WE LIVE John Amodeo Lyngdoh, 2023-05-25 Why are we here This is a commonly asked question that has perplexed man for ages When this same question was posed to the author of this book by his 6 year old niece the gravity of the question became intense and the urgency to find the answer was greatly felt This book is an attempt by the author to respond to the child's question from a psycho physiological point of view by examining the idea that love is the reason we live The narrative highlights the existence of physiological dictates which conceivably consists of the neuro hormonal mechanisms and the idea spirit concept and goals existing behind these mechanisms that scientifically give credence to the idea that the experience of love is a physiological mandate for human existence

The Age of Scientific Sexism Mari Ruti, 2015-07-30 We trust our

sciences to operate on a plane of objectivity and fact in a world of subjectivity and cultural ideologies but should we In The Age of Scientific Sexism philosopher Mari Ruti offers a sharp critique of the gender profiling tendencies of evolutionary psychology untangling the insidious threads of various gender mythologies that have infiltrated or perhaps even define this faux science Selling stereotypes as scientific facts evolutionary psychology continually brings retrograde models of sexuality into mainstream culture it insists that men and women live in two completely different psychological emotional and sexual universes and that they will consequently always be locked in a vicious battle of the sexes Among these regressive arguments is the assumption that men s sexuality is urgent and indiscriminate whereas women are naturally reluctant reticent and choosy a concept constructed to justify masculine behavior such as cheating that women have historically found painful On its most basic level The Age of Scientific Sexism explores our impulse to explain romantic behavior through science in the increasingly egalitarian gender landscape of our society why are we so eager to embrace the rampant gender profiling that evolutionary psychology promotes Perhaps these simplistic gender caricatures owe their popularity at least in part to our overly pragmatic society pragmatic society which encourages us to search for easy answers to complex questions

Handbook on Evolution and Society Alexandra Maryanski, Richard Machalek, Jonathan H. Turner, 2015-11-17

Handbook on Evolution and Society brings together original chapters by prominent scholars who have been instrumental in the revival of evolutionary theorizing and research in the social sciences over the last twenty five years Previously unpublished essays provide up to date critical surveys of recent research and key debates The contributors discuss early challenges posed by sociobiology the rise of evolutionary psychology the more conflicted response of evolutionary sociology to sociobiology and evolutionary psychology Chapters address the application and limitations of Darwinian ideas in the social sciences Prominent authors come from a variety of disciplines in ecology biology primatology psychology sociology and the humanities The most comprehensive resource available this vital collection demonstrates to scholars and students the new ways in which evolutionary approaches ultimately derived from biology are influencing the diverse social sciences and humanities

Jena Pincott,2008 Cosmopolitan meets Scientific American in this entertaining and informative question and answer book on human attraction Do Gentlemen Really Prefer Blondes? Jena Pincott,2010-06-10 Q Do Gentlemen Really Prefer Blondes A Marilyn Monroe Scarlet Johansson and Gwyneth Paltrow would be happy to know that they do During the Ice Age when even cavemen were in short supply the blonde woman really did get her man simply because her light coloured hair made her stand out Plus scientists have recently discovered that natural blondes have higher oestrogen levels In short golden preferably long hair shouts I am young sexy and fertile to every member of the male species within a few miles Q When s the best time to seduce my man A Your other half will definitely get more possessive and more attracted to you when you re ovulating and at your most fertile You ll spend time on your make up and choose next day s outfit before you go to bed Your lips will be fuller and your skin will be radiant because of the high levels of oestrogen being pumped through your blood But don t get carried away by how sexy you feel You are also more likely to be unfaithful during this period and your boyfriend is also likely to run away with another equally fertile member of the female species Q How do I get him to change his wild lifestyle A Get pregnant Shocking but true Fathers have lower testosterone levels than single men which means that they are more easy going and less confrontational they take fewer life threatening risks and they are far less likely to have an affair with the leggier skinnier blonde from the office **The Scientific American Book of Love, Sex and the Brain** Judith Horstman,Scientific American,2011-11-15 Who do we love Who loves us And why Is love really a mystery or can neuroscience offer some answers to these age old questions In her third enthralling book about the brain Judith Horstman takes us on a lively tour of our most important sex and love organ and the whole smorgasbord of our many kinds of love from the bonding of parent and child to the passion of erotic love the affectionate love of companionship the role of animals in our lives and the love of God Drawing on the latest neuroscience she explores why and how we are born to love how we re hardwired to crave the companionship of others and how very badly things can go without love Among the findings parental love makes our brain bigger sex and orgasm make it healthier social isolation makes it miserable and although the craving for romantic love can be described as an addiction friendship may actually be the most important loving relationship of your life Based on recent studies and articles culled from the prestigious Scientific American and Scientific American Mind magazines The Scientific American

Book of Love Sex and the Brain offers a fascinating look at how the brain controls our loving relationships most intimate moments and our deep and basic need for connection The Chemistry Between Us Larry Young PhD, Brian Alexander, 2012-09-13 How much control do we have over love Much less than we like to think All that mystery all that poetry all those complex behaviors surrounding human bonding leading to the most life changing decisions we'll ever make are unconsciously driven by a few molecules in our brains How does love begin How can two strangers come to the conclusion that it would not only be pleasant to share their lives but that they must share them How can a man say he loves his wife yet still cheat on her Why do others stay in relationships even after the romance fades How is it possible to fall in love with the wrong person How do people come to have a type Physical attraction jealousy infidelity mother infant bonding all the behaviors that so often leave us befuddled are now being teased out of the fog of mystery thanks to today's social neuroscience Larry Young one of the world's leading experts in the field and journalist Brian Alexander explain how those findings apply to you Drawing on real human stories and research from labs around the world The Chemistry Between Us is a bold attempt to create a grand unified theory of love Some of the mind blowing insights include Love can get such a grip on us because it is literally an addiction To a woman falling in love a man is like her baby Why it's false to say society makes gender and how it's possible to have the body of one gender and the brain of another Why some people are more likely to cheat than others Why we sometimes truly can't resist temptation Young and Alexander place their revelations into historical political and social contexts In the process they touch on everything from gay marriage to why single mother households might not be good for society The Chemistry Between Us offers powerful insights into love sex gender sexual orientation and family life that will prove to be enlightening controversial and thought provoking Sex on the Brain Deborah Blum, 1998-07-01 Go beyond the headlines and the hype to get the newest findings in the burgeoning field of gender studies Drawing on disciplines that include evolutionary science anthropology animal behavior neuroscience psychology and endocrinology Deborah Blum explores matters ranging from the link between immunology and sex to male female gossip styles The results are intriguing startling and often very amusing For instance did you know that Male testosterone levels drop in happy marriages scientists speculate that women may use monogamy to control male behavior Young female children who are in day care are apt to be more secure than those kept at home young male children less so Anthropologists classify Western societies as mildly polygamous The Los Angeles Times has called Sex on the Brain superbly crafted science writing graced by unusual compassion wit and intelligence that forms an important addition to the literature of gender studies
