N. Ginn,1997 Dorland Family Redwood ,1996 *Jane Hicks Gentry* Betty N. Smith,2014-07-11 Winner of the North Carolina Society of Historians Award Jane Hicks Gentry lived her entire life in the remote mountainous northwest corner of North Carolina and was descended from old Appalachian families in which singing and storytelling were part of everyday life Gentry took this tradition to heart and her

legacy includes ballads songs stories and riddles Smith provides a full biography of this vibrant woman and the tradition into which she was born presenting seventy of Gentry's songs and fifteen of the Jack tales she learned from her grandfather When Englishman Cecil Sharp traveled through the South gathering material for his famous English Folk Songs from the Southern Appalachians his most generous informant was Jane Hicks Gentry But despite her importance in Sharp's collection Gentry has remained only a name on his pages Now Betty Smith herself a folksinger brings to life this remarkable artist and her songs and tales The Pacific Reporter ,1885 Running With Dillinger Edward Butts,2008-02-12 This book picks up where The Desperate Ones Canada's Forgotten Outlaws left off Here are more remarkable true stories about Canadian crimes and criminals most of them tales that have been buried for years The stories begin in colonial Newfoundland with robbery and murder committed by the notorious Power Gang As readers travel across the country and through time they will meet the last two men to be hanged in Prince Edward Island smugglers who made lake Champlain a battleground a counterfeiter whose bills were so good they fooled even bank managers and teenage girls who committed murder in their escape from jail They will meet the bandits who plundered banks and trains in Eastern Canada and the West and even the United States Among them were Sam Behan a robber whose harrowing testimony about the brutal conditions in the Kingston Penitentiary may have brought about his untimely death in The Hole and John Red Hamilton the Canadian born member of the legendary Dillinger gang *The Williams Dictionary of Biomaterials* ,1999-01-01 There has been a rapid expansion of activity in the area of biomaterials and related medical devices both in scientific terms and in clinical and commercial applications The definition of terms has failed to keep pace with the rapidity of these developments and there is considerable confusion over the terminology used in this highly multi and inter disciplinary area This confusion has arisen partly from the use of inappropriate terms which already have well defined meanings in their parent disciplines but which are used inexpertly by those working in other disciplines and partly from the haphazard generation of new terms for the purpose of defining new phenomena or devices For example many terms used in pathology with distinct if not readily understood meanings are used by materials scientists to describe biocompatibility phenomena with slightly changed or even wholly misrepresented meanings similarly terms from materials science and engineering are seriously misused by biologists and clinicians working in this field The leading proponent of harmonization and clarity in medical device terminology Professor D F Williams has been influential in setting the standard for the accurate definition of some of the terms used In particular the definition of biocompatibility the Williams definition agreed at a 1987 conference has been adopted worldwide Now in association with O Donnell and Associates of Brussels he has prepared The Williams Dictionary to provide a definitive exposition of the meaning of the terminology used in the area of biomaterials and medical devices It includes definitions and explanations of more than 2 000 terms from many areas including biomaterials and medical devices materials science biological sciences and clinical medicine and surgery *Dorland's Medical Directory* ,1996 **Year Book of the Dutchess**
