asserted too confidently how the rise and reign of digital music has diminished the power of major record labels In iTake Over music scholar David Arditi argues otherwise adopting a broader perspective by examining how the recording industry has strengthened copyright laws for their corporate ends at the expense of the broader public good which has traditionally depended on the safe harbor of fair use Arditi also challenges the dominant discourse over digital music distribution which has largely adopted the position that the recording industry has a legitimate claim to profitability at the detriment of a shared culture iTake Over more specifically surveys the actual material effects that digital distribution has had on the industry Most notable among these is how major record labels find themselves in a stronger financial position today in the music industry than they were before the launch of Napster Arditi contends that this is largely because of reduced production and distribution costs and the steady gain in digital music sales Moreover instead of merely trying to counteract the phenomenon of digital distribution the RIAA and the major record labels embraced and then altered the distribution system Throughout the 1990s and early 2000s the RIAA lobbied for legislation built technologies and waged war in the courts in order to shape the digital environment for music distribution From mp3s to the Digital Millennium Copyright Act DMCA from the Audio Home Recording Act AHRA to iTunes the major record labels and the RIAA instead of trying to torpedo the switch to digital distribution engineered it to their benefit often at the expense of the public interest Throughout Arditi boldly asserts that the sea change to digital music did not destroy the recording industry Rather it stands as a testament to the recording industry s successful management of this migration to digital production and distribution As such this work should appeal to musicians and music scholars political scientists and sociologists technologists and audio professionals seeking to grasp this remarkable change in music production and consumption **Stereophile** ,2006 *Billboard* ,2000-11-04 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends **Marketing** Gary Armstrong,2009 Our goal with the first European edition of Marketing an introduction has been to retain the great strengths of the US original Preface **8-442, The Internet Tax Freedom Act** Conrad Burns,2000-08 Witnesses include Senators Conrad Burns Byron L Dorgan John McCain and Ron Wyden Wade Anderson Director of Tax Policy Office of the State Comptroller State of Texas Representatives Christopher Cox and Rich White Kendall L Houghton general counsel Committee on State Taxation Timothy M Kaine Richmond city councilman National League of Cities Richmond VA Linda Rankin general counsel Bear Creek Corporation Lawrence H Summers Deputy Secretary Department of the Treasury and James Walton member Association of Online Professionals
