Multimedia Processing, Communication and Computing Applications Punitha P. Swamy, Devanur S.

Guru, 2013-05-25 ICMCCA 2012 is the first International Conference on Multimedia Processing Communication and Computing Applications and the theme of the Conference is chosen as Multimedia Processing and its Applications. Multimedia processing has been an active research area contributing in many frontiers of today's science and technology. This book presents peer-reviewed quality papers on multimedia processing which covers a very broad area of science and technology. The prime objective of the book is to familiarize readers with the latest scientific developments that are taking place in various fields of multimedia processing and is widely used in many disciplines such as Medical Diagnosis, Digital Forensic, Object Recognition, Image and Video Analysis, Robotics, Military, Automotive Industries, Surveillance and Security, Quality Inspection, etc. The book will assist the research community to get the insight of the overlapping works which are being carried out across the globe at many medical hospitals and institutions, defense labs, forensic labs, academic institutions, IT companies, and security surveillance domains. It also discusses the latest state of the art research problems and techniques and helps to encourage, motivate, and introduce the budding researchers to a larger domain of multimedia. **A Happy Body Is**

a Healthy Body Mahendri Arundale, 2023-09-14 The people of ancient India turned to their physicians, vaidyas, and wise seers to make their bodies, minds, and spirits happy with a system of diet, healing, and health maintenance called Ayurveda, knowledge of life which is based on nature and its healing power. Food was analyzed based on taste, digestion, and gastric fire, agni, or the ability to digest and assimilate food. This time-tested system of healing is based on what, when, and how we eat and is documented in the Vedas, books of ancient knowledge. A Happy Body Is a Healthy Body reveals that most diseases can be traced to an improper diet. Fortunately, nature's gift to us is food, herbs, and spices to promote healing as long as we know how to use them. Drawing on three decades of research, Mahendri Arundale provides more than a plant-based cookbook of recipes and instructions which would be valuable in itself. She also reveals priceless Vedic knowledge that has endured for thousands of years. The book also includes a self-assessment to help you discover your body's energy type so you take full advantage of rejuvenating recipes and find simple ways to relax when stressed. *Advancements in Applied Metaheuristic Computing*

Dey, Nilanjan, 2017-11-30 Metaheuristic algorithms are present in various applications for different domains. Recently, researchers have conducted studies on the effectiveness of these algorithms in providing optimal solutions to complicated problems. *Advancements in Applied Metaheuristic Computing* is a crucial reference source for the latest empirical research on methods and approaches that include metaheuristics for further system improvements and it offers outcomes of employing optimization algorithms. Featuring coverage on a broad range of topics such as manufacturing, genetic programming, and medical imaging, this publication is ideal for researchers, academicians, advanced level students, and technology developers seeking current research on the use of optimization algorithms in several applications. **The**

The Gītā and Tulasī-Rāmāyaṇa Satya P. Agarwal, 2000 This book has identified the good of all as the single most important criterion of excellence of any socio spiritual approach to life's problems particularly in the context of the conflict ridden society of today The comprehensive coverage of this criterion as presented in this study has strong links with like Ganga Yamuna and Saraswati three life sustaining streams of thought The first stream refers to the lokasamgraha message of the Gita which has been formulated in that scripture from ten different but inter connected angles The second stream refers to the jagmangal message of the Manas which is simpler to grasp and which can also be explained from the same ten angles as are applicable to the Gita The third stream refers to the repeated expressions of the concern for the good of all which began with the Vedas and which continued as an integral part of the Indian tradition a steady source which strengthened the calls of the Gita and Manas also By putting all these ideas together and by maintaining the interest of the readers this book has opened the door to a new field of study and research viz the Indian contribution to the theory and practice of the good of all
