Kristen Schilt, 2011-01-15 The fact that men and women continue to receive unequal treatment at work is a point of contention among politicians the media and scholars Common explanations for this disparity range from biological differences between the sexes to the conscious and unconscious biases that guide hiring and promotion decisions Just One of the Guys sheds new light on this phenomenon by analyzing the unique experiences of transgender men people designated female at birth whose gender identity is male on the job Kristen Schilt draws on in depth interviews and observational data to show that while individual transmen have varied experiences overall their stories are a testament to systemic gender inequality The reactions of coworkers and employers to transmen Schilt demonstrates reveal the ways assumptions about innate differences between men and women serve as justification for discrimination She finds that some transmen gain acceptance and even privileges by becoming just one of the guys that some are coerced into working as women or marginalized for being openly transgender and that other forms of appearance based discrimination also influence their opportunities Showcasing the voices of a frequently overlooked group Just One of the Guys lays bare the social processes that foster forms of inequality that affect us all *Queering Public Health and Public Policy in the Deep South* Kamden K.

The Voice of Southern Labor Vincent J. Roscigno,William F. Danaher,2004 The 1934 strike of southern textile workers involving nearly 400 000 mill hands remains perhaps the largest collective mobilization of workers in U S history How these workers came together in the face of the powerful and coercive opposition of management and the state is the remarkable story at the center of this book *The Voice of Southern Labor* chronicles the lives and experiences of southern textile workers and provides a unique perspective on the social cultural and historical forces that came into play when the group struck first in 1929 and then on a massive scale in 1934 The workers grievances solidarity and native radicalism of the time were often reflected in the music they listened to and sang and Vincent J Roscigno and William F Danaher offer an in depth context for understanding this intersection of labor politics and culture The authors show how the message of the southern mill hands spread throughout the region with the advent of radio and the rise of ex mill worker musicians and how their sense of opportunity was further bolstered by Franklin D Roosevelt s radio speeches and policies Vincent J Roscigno is associate professor of sociology at Ohio State University William F Danaher is associate professor in the Department of Sociology and Anthropology at the College of Charleston

Community Gardening in an Unlikely City Tyler Schafer, 2020-12-10 Community gardening is as much about community as it is gardening and compared to growing plants cultivating community is far more difficult In Community Gardening in an Unlikely City The Struggle to Grow Together in Las Vegas Schafer documents his time as a member of a fledgling Las Vegas community garden and the process through which a rotating group of gardeners try to forge community He demonstrates the ways in which choices gardeners make about what goals to pursue or who belongs or what story to tell about their collective efforts influence how they and others experience and interpret the garden The garden culture that emerges over time shapes how or whether community is practiced at the garden and has important consequences for the gardeners abilities to connect with the low income Black and Latinx community in which it is located Schafer s analysis provides important insights about urban culture the environment and food justice in the American Southwest and a sober look into the often messy process and practice of community

Visibility Interrupted Carly Thomsen, 2021-07-27 A questioning of the belief in the power of LGBTQ visibility through the lives of queer women in the rural Midwest Today most LGBTQ rights supporters take for granted the virtue of being out loud and proud Most also assume that it would be terrible to be LGBTQ in a rural place By considering moments in which queerness and rurality come into contact Visibility Interrupted argues that both positions are wrong In the first monograph on LGBTQ women in the rural Midwest Carly Thomsen deconstructs the image of the rural as a flat homogenous and anachronistic place where LGBTQ people necessarily suffer And she suggests that visibility is not liberation and will not lead to liberation Far from being an unambiguous good argues Thomsen visibility politics can in fact preclude collective action They also advance metronormativity postraciality and capitalism To make these interventions Thomsen develops the theory of unbecoming interrogating the relationship between that which we celebrate and that which we find disdainful the past the rural politics is crucial for developing alternative subjectivities and politics Unbecoming precedes becoming Drawing from critical race studies disability studies and queer Marxism in addition to feminist and queer studies the insights of this book will be useful to scholars theorizing issues far beyond sexuality and place and to social justice activists who want to move beyond visibility

Styling Masculinity Kristen Barber,2016-08-24 The twenty first century has seen the emergence of a new style of man the metrosexual Overwhelmingly straight white and wealthy these impeccably coiffed urban professionals spend big money on everything from facials to pedicures all part of a multi billion dollar male grooming industry Yet as this innovative study reveals even as the industry encourages men to invest more in their appearance it still relies on women to do much of the work Styling Masculinity investigates how men s beauty salons have persuaded their clientele to regard them as masculine spaces To answer this question sociologist Kristen Barber goes inside Adonis and The Executive two upscale men s salons in Southern California Conducting detailed observations and extensive interviews with both customers and employees she shows how female salon workers not only perform the physical labor of snipping tweezing waxing and exfoliating but also perform the emotional labor of pampering their clients and pumping up their masculine egos Letting salon employees tell their own stories Barber not only documents occasions when these workers are objectified and demeaned but also explores
