Dreams, Evolution, and Value Fulfillment, Vol 1 Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks and The Nature of Personal Reality In this first volume of Dreams Evolution and Value Fulfillment Seth takes us on an odyssey to identify the origins of our universe and our species He asserts that consciousness units form the basis of all energy and matter and charts a conscious self aware universe that is constantly recreated by our own thoughts dreams and desires Illuminating the part that humans play in the greater scheme of things he suggests that we are alive not only for the continuation of the species but to add to the very quality of life itself Other fascinating topics include The role dreams play in the creation of language and technology The relationship between genetic heritage and reincarnation How creativity provides a link with the source of all existence The true power of the imagination and the importance of broadening its scope A discussion of value fulfillment or the yearning to enhance the quality of life as a fundamental desire in all life forms Stimulating and provocative this long awaited book answers crucial questions about the entire significance of Seth s system of thought When I speak of the dream world I am not referring to some imaginary realm but to the kind of world of ideas of thoughts of mental actions out of which all form as you think of it emerges In actuality this is an inner universe rather than an inner world Your physical reality is but one materialization of that inner organization Jane Roberts Speaking for Seth

The Nature of Personal Reality (A Seth Book) Jane Roberts, 2011-10-01 In this perennial bestseller Seth challenges our

assumptions about the nature of reality and shows us how we create our personal reality through our conscious beliefs about ourselves others and the world His message is clear we are not at the mercy of the subconscious or helpless before forces we cannot understand We are Gods couched in creaturehood Seth says We are given the ability to form our experience as our thoughts and feelings become actualized Seth was one of my first metaphysical teachers He remains a constant source of knowledge and inspiration in my life Marianne Williamson I would like to see the Seth books as required reading for anyone on their spiritual pathway The amazing in depth information in the Seth books is as relevant today as it was in the early 70s when Jane Roberts first channeled this material Louise Hay God Theories Ken Ungerecht,2010-07-23 Never discuss religion or politics as the saying goes if you want to keep the peace But it s clear that old adage hasn t really been too effective Prejudice discrimination intolerance and wars all in the name of God have been an integral part of the human condition for at least as long as that condition has been recorded But the price on these addictions is getting pretty steep It could be the time has come when we will have to give them up I don t expect we ll all quit cold turkey but maybe some honest open sit down heart to hearts might help to see us through Maybe not but if you think there s half a chance then I say Let s start the conversation **The Individual and the Nature of Mass Events** Jane Roberts,2011-07-08 From the Bestselling Author of Seth Speaks Speaking exclusively through Jane Roberts Seth has repeatedly stressed the concept that we create our own reality according to our individual beliefs But how do our realities merge and combine to form mass reactions such as the overthrow of governments the birth of a new religion wars epidemics earthquakes and new periods of art architecture and technology In this pioneering work Seth explores the connection between personal beliefs and world events He pinpoints the unconscious and often negative beliefs pervading science and religion medicine and mythology and offers thought provoking reflections on Darwinism Freudianism religions cults and medical beliefs With fascinating and inspiring implications Seth asserts that the personal impulses we are often taught to see as dangerous chaotic or contradictory are instead crucial to the best interests of the species and the natural world for they lead us to live not only as loving caretakers but as partners with other species Only people who trust their spontaneous impulses can be consciously wise enough to choose from a myriad of probable futures the most promising events Jane Roberts Speaking for Seth *Das Unsterblichkeitsproblem* Gerda Lier,2010-05-19 F nf zentrale Annahmen werden immer wieder angefhrt um die Unsterblichkeit zu negieren Es gebe nur die physische Welt keine Hinweise auf andere Wirklichkeitsbereiche oder Dimensionen seien vorhanden Die Lebewesen seien ohne Absicht ausschlie lich durch rein mechanistisch materialistische Prozesse entstanden Es gebe keine rationalen Argumente f r die Existenz einer transzendenten Wirklichkeit Das Bewusstsein sei ein Produkt der Komplexit t des Nervensystems es gebe keine Belege f r die Transmissionshypothese nach der das Hirn wie ein Transmitter f r ein eigenst ndiges Bewusstsein wirkt Schlie lich sei in der Aufkl rung gezeigt worden dass die Vorstellung einer unsterblichen Seele irrational sei Die Autorin pr ft inwieweit diese Annahmen gesichert sind Sie zeigt im

Detail dass es gute Belege wenn auch keine zwingenden Beweise für die Unabhängigkeit und die Trennbarkeit des Bewusstseins vom physischen Körper die postmortale Kontinuität des Bewusstseins und die Unsterblichkeitshypothese gibt Die Arbeit kombiniert existenz und naturphilosophische Fragestellungen mit mathematischen physikalischen biologischen und neurowissenschaftlichen Perspektiven und bietet so einen umfassenden Blick auf das Problem der Unsterblichkeit

Swan Song Mali Berger, 2011-05-23 *Swan Song* The Great Magical Unknowing Elegance emerged from a desire to write an inside story an autobiography of the dream muse and odd vision that never quite lets go of our memory These inner senses from childhood to old age wanted a book in fact demanded one I recalled a story about an old wisdom woman in Ireland who each morning chose one of her lifetime journals let it fall open to any page and then spent her rocking chair days remembering that single day out of her years Climbing a ladder I pulled down twenty five years of dated journals stacked them on a wooden table and proceeded to draw out memorable events that I used for Book One of *Swan Song* created in New York City It was becoming a novel with actual events that I had lived However something totally mysterious occurred I began to experience the strangest dreams of my life Several times a week I would find myself in Medieval Galway Ireland in a poor tenement or slum in the loft of Brian I was telling him that he and his love must leave because bad times were coming Brian saw me wasn't afraid believed my words and made plans for himself and his love Daniela to immigrate to New York I don't want to tell readers anything else about the dreams or how they took over the novel and my life as I flew from JFK to Galway to dream the story on location I have known for a long time that the inner senses control our outer physical life Not the other way around We are taught that what happens during our awake days may become dreams Wrong Our dreams come first and regulate our physical days Many years ago I read a few of Jane Roberts Seth books Now in the midst of *Swan Song* his ideas

flowered again Thus the autobiography fiction and research novel took on a whole new life and my inside story truly became The Great Magical Unknowing Elegance The Unknown Reality, Vol 2 Jane Roberts,2011-07-08 From the Bestselling Author of Seth Speaks In this second volume of The Unknown Reality Seth radically expands our conceptions of self by showing us that the human personality is literally infinite in its scope and potential He discloses precisely how probable realities combine to create our waking lives and how our higher selves make decisions regarding our everyday existence In a far reaching exploration of the dynamics of desire and free will he asserts that each atom molecule and cell has its own consciousness and powers of choice With humor and simple analogies Seth leads us beyond our ordinary level of awareness into a spectacular discovery of the multidimensional nature of the self including Consciousness units as the basis of our universe The relevance of extrasensory perception in understanding our world The worlds we visit in dreams and out of body states Dreaming as a science to create present and future realities Families of consciousness we choose to belong to Practical methods for exploring your own unknown reality There is an unknown reality I am part of it and so are you Each individual is a part of the unknown reality To explore the unknown reality you must venture within your own psyche travel inward through invisible roads as you journey outward on physical ones I hope that in this book the reader can see the greater dimensions that touch ordinary living and sense the psyche s greater magic Jane Roberts Speaking for Seth **ESP Power** Jane Roberts,2000
