their increasingly huge need for energy strengthen the case for cooperative security particularly in the maritime arena After all safe and open sea lanes remain an essential component of mutually beneficial intercontinental trade making India and China increasingly dependent on safe passage of oil tankers Or will we see reversion to more traditional competition and even conflict given that the major Asian powers themselves have so many unresolved problems and that the future of the U S presence in the area is uncertain Kemp believes the United States will remain the dominant military power in the region but will have to share some security responsibilities with the Asians especially in the Indian Ocean

Selling the Serengeti Benjamin Gardner, 2016-02-15 Situating safari tourism within the discourses and practices of development Selling the Serengeti examines the relationship between the Maasai people of northern Tanzania and the extraordinary influence of foreign owned ecotourism and big game hunting companies It contrasts two major approaches to community conservation international NGO and state sponsored conservation efforts on the one hand and the neoliberal private investment in tourism on the other and investigates their profound effect on the Maasai's culture and livelihood It further explores how these changing social and economic forces remake the terms through which state institutions and local people engage with foreign investors communities and their own territories And finally it highlights how the new tourism arrangements change the shape and meaning of the nation state and the village and in the process remake cultural belonging and citizenship Benjamin Gardner's experiences in Tanzania began during a study abroad trip in 1991 His stay led to a relationship with the nation and the Maasai people in Loliondo lasting almost twenty years it also marked the beginning of his analysis of and ethnographic
