The Couple and Family Technology Framework
Katherine M. Hertlein, Markie L. C. Blumer, 2013-07-18 Couples and families worldwide have a constant electronic connection to others a fact that is influencing the concerns and issues they bring to therapy The authors of this resource help mental health practitioners to better deal with concerns such as online infidelity online dating internet addictions cyber bullying and many more by introducing the Couple and Family Technology CFT framework a multi-theoretical approach that doesn't

require clinicians to change their preferred clinical approach The CFT framework acknowledges the ways in which couples navigate their relationship with technology and a partner simultaneously and it attends to and in some cases incorporates the role of technology in therapeutic ways Included in the authors discussion of how different technologies affect relationships is a survey of what individuals motivations of usage are an examination of the specific issues that emerge in treatment a study of the risks particularly relevant to intimate relationships and an introduction of the first ever technology based genogram They also examine technological usage across different developmental points in a couple s lifespan with attention given throughout to people from various cultural backgrounds Along with the CFT framework the authors also introduce a new discipline of family research Couple and Family Technology This discipline integrates three broad perspectives in family science and helps therapists maintain a systemic focus in assessing and treating couples where issues of the Internet and new media are problematic Online resources can be accessed by purchasers of the book and include videos additional case studies glossary and forms

Online Dating Bliss Anthony Ekanem, 2016-09-27 Online dating is not all fun and games and there are a lot of things that a person has to know about online dating before one gets into the intricacies of it Online dating may seem to be the simplest thing in the world but it is not It should be viewed in all earnestness or things could go haywire Every game has its rules and unless you know all the rules you just can t become a good player and eventually a winner There are so many kinds of people around Just look around you how many people you know look the same Sizes builds shapes features they are all so different And that is just about the external appearances And when it comes to character it becomes a very different story altogether Take a trip down memory lane go back to your classrooms and look around A classroom is one place where we get to interact with a lot of different people on a very close basis We get to rub shoulders and corners with very different people and we get to know them on a one to one basis So how many of your classmates did you genuinely like I don t mean like them as classmates but as people Was it easy to get along with all of them That is why we often end up with best friends or clich s in classrooms We do not and do not have to like everybody The tastes and interests of one person might match with ours while the tastes and interests of another person may be at complete loggerheads with ours So when it comes to dating it is very much the same story But over here there are some strings attached Unlike in a classroom contact most people go on dates with a more impressive purpose and that is to find life mate

There are a hundred and one things that should match before two people decide to spend the rest of their lives with each other Many people are of the opinion that they do not need any help with dating They may be right because nobody knows a person s tastes and likes better than the person himself or herself
