Why Are You Still Sending Your Kids to School? Blake Boles,2020-05-19 For some kids school offers a positive and engaging experience For others it s a boring stressful and frustrating waste of time If your child is in the second category why keep tormenting them Instead why not help them find an educational environment where they feel genuinely motivated excited and empowered In this eye opening book Blake Boles makes the case for leaving conventional school and taking one

of the many alternative paths through K 12 that exist today He addresses parents major concerns about unconventional education Can my kids still go to college Will they still be employable How will they learn to work hard while highlighting the hidden benefits of self directed learning such as improved parent child relationships a more balanced decision making process regarding college and a heightened sense of autonomy and connection Drawing upon 15 years of work as a mentor and guide for adolescents in alternative and experiential learning environments as well as his own unconventional life path Boles weaves together narrative theory and research to build a powerful argument for granting children unusual levels of freedom and responsibility

Academically Adrift Richard Arum, Josipa Roksa, 2011-01-15 In spite of soaring tuition costs more and more students go to college every year A bachelor s degree is now required for entry into a growing number of professions And some parents begin planning for the expense of sending their kids to college when they re born Almost everyone strives to go but almost no one asks the fundamental question posed by Academically Adrift are undergraduates really learning anything once they get there For a large proportion of students Richard Arum and Josipa Roksa s answer to that question is a definitive no Their extensive research draws on survey responses transcript data and for the first time the state of the art Collegiate Learning Assessment a standardized test administered to students in their first semester and then again at the end of their second year According to their analysis of more than 2 300 undergraduates at twenty four institutions 45 percent of these students demonstrate no significant improvement in a range of skills including critical thinking complex reasoning and writing during their first two years of college As troubling as their findings are Arum and Roksa argue that for many faculty and administrators they will come as no surprise instead they are the expected result of a student body distracted by socializing or working and an institutional culture that puts undergraduate learning close to the bottom of the priority list Academically Adrift holds sobering lessons for students faculty administrators policy makers and parents all of whom are implicated in promoting or at least ignoring contemporary campus culture Higher education faces crises on a number of fronts but Arum and Roksa s report that colleges are failing at their most basic mission will demand the attention of us all

American Universities and Colleges Praeger Publishers, 2010-04-16 For well over a half century American Universities and Colleges has been the most comprehensive and highly respected directory of four year institutions of higher education in the United States A two volume set that Choice magazine hailed as a most important resource in its November 2006 issue this revised edition features the most up to date statistical data available to guide students in making a smart yet practical decision in choosing the university or college of their dreams In addition the set serves as an indispensable reference source for parents college advisors educators and public academic and high school librarians These two volumes provide extensive information on 1 900 institutions of higher education including all accredited colleges and universities that offer at least the baccalaureate degree This essential resource offers pertinent statistical data on such topics as tuition room and board admission requirements financial aid enrollments student life library holdings accelerated and
