Shinra Myōjin and Buddhist Networks of the East Asian "Mediterranean" Sujung Kim, 2019-11-30 This ambitious work offers a transnational account of the deity Shinra Myōjin the god of Silla worshipped in medieval Japanese Buddhism from the eleventh to sixteenth centuries Sujung Kim challenges the long held understanding of Shinra Myōjin as a protective deity of the Tendai Jimon school showing how its worship emerged and developed in the complex networks of the East Asian Mediterranean a quality rather than a physical space defined by Kim as the primary conduit for cross cultural influence in a region that includes the Yellow Sea the Sea of Japan East Sea the East China Sea and neighboring coastal areas While focusing on the transcultural worship of the deity Kim engages the different maritime arrangements in which Shinra Myōjin circulated first the network of Korean immigrants Chinese merchants and Japanese Buddhist monks in China's Shandong peninsula and Japan's mi Province and second that of gods found in the East Asian Mediterranean Both of these networks became nodal points of exchange of both goods and gods Kim's examination of temple chronicles literary writings and iconography reveals Shinra Myōjin's evolution from a seafaring god to a multifaceted one whose roles included the god of pestilence and of poetry the insurer of painless childbirth and the protector of performing arts Shinra Myōjin and Buddhist Networks of the East Asian Mediterranean is not only the first monograph in any language on the Tendai Jimon school in Japanese Buddhism but also the first book length study in English to examine Korean connections in medieval Japanese religion Unlike other recent studies on individual Buddhist deities it foregrounds the need to approach them within a broader East Asian context By shifting the paradigm from a land centered vision to a sea centered one the work underlines the importance of a transcultural and interdisciplinary approach to the study of Buddhist deities

Edward Kidder, 2007-02-28 The third century Chinese chronicle Wei zhi Record of Wei is responsible

for Japan's most enduring ancient mystery. This early history tells of a group of islands off the China coast that were dominated by a female shaman named Himiko. Himiko ruled for more than half a century as head of the largest chiefdom traditionally known as Yamatai until her death in 248. Yet no such person appears in the old Japanese literature. Who was Himiko and where was the Yamatai she governed? In this, the most comprehensive treatment in English to date, a senior scholar of early Japan turns to three sources: historical, archaeological, and mythological, to provide a multifaceted study of Himiko and ancient Japanese society. **Stores**, 1989. Women Religious Leaders in Japan's Christian Century, 1549-1650 Haruko Nawata Ward, 2016-12-05. Meticulously researched and drawing on original source materials written in eight different languages, this study fills a lacuna in the historiography of Christianity in Japan, which up to now has paid little or no attention to the experience of women. Focusing on the century between the introduction of Christianity in Japan by Portuguese Jesuit missionaries in 1549 and the Japanese government's commitment to the eradication of Christianity in the mid-seventeenth century, this book outlines how women provided crucial leadership in the spread, nurture, and maintenance of the faith through various apostolic ministries. The author's research on the religious backgrounds of women from different schools of late medieval Japanese Shinto Buddhism sheds light on individual women's choices to embrace or reject the Reformed Catholicism of the Jesuits and explores the continuity and discontinuity of their religious expressions. The book is divided into four sections devoted to an in-depth study of different types of apostolates: nuns, women who took up monastic vocations, witches, the women leaders of the Shinto Buddhist tradition who resisted Jesuit teachings, catechists, women who engaged in ministries of persuasion and conversion, and sisters, women devoted to missions of mercy. Analyzing primary sources including Jesuit histories, letters, and reports, especially Luis Fróis's *História do Japão*, hagiography, and family chronicles, each section provides a broad understanding of how these women, in the context of misogynistic society and theology, utilized resources from their traditional religions to new Christian adaptations and specific religious-social issues, creating unique hybrids of Catholicism and Buddhism. The inclusion of Portuguese, Spanish, Italian, and Japanese texts, many available for the first time in English, and the dramatic conclusion that women were largely responsible for the trajectory of Christianity in early modern Japan makes this book an essential reading for scholars of women's history, religious history, history of Christianity, and Asian history.
