Transformation of Elections in Africa Cosmas Uchenna Nwokefor, 2017-02-22 Technology Integration and Transformation of Elections in Africa serves as a standard textbook and a reference guide to students in both undergraduate and graduate programs in tertiary institutions where elaborate discourse on the impact of technology to political elections and advancements across the continental Africa have continued to gain weight The rationale in publishing this textbook far more outweighs its timeliness but speaks highly of its significance because it deals with technology integration and transformation of elections in Africa a region whose elections have been continuously marred by corruption and incessant fraudulent activities perpetrated by both the citizens various political parties and the umpires whose responsibilities were to present a credible election Elections in Africa draws international attention and the news is seldom good For instance the elections in Kenya fueled violence that left 1 500 dead and 300 000 displaced while elections in Zimbabwe suffered from massive fraud and brutal suppression In Nigeria in 1999 and 2011 the result of the elections were in shambles and some of the parties that lost the election took to the street resulting in the death of significant percentage of innocent people

It covers all aspects of newswriting for the broadcast media and emphasises the need to understand the point of the audience. *Jahresbibliographie Massenkommunikation*, 2001. *The Vanishing Word* Arthur W. Hunt, 2013-09-01. Is image everything? For many people in our culture image and images are everything. Americans spend hours watching television but rarely finish a good book. Words are quickly losing their appeal. Arthur Hunt sees this trend as a direct assault on Christianity. He warns that by exalting imagery we risk becoming mindless pagans. Our thirst for images has dulled our minds so that we lack the biblical and mental defenses we need to resist pagan influences. What about paganism? Hunt contends that it never died in modern Western culture; image-based media just brought it to the surface again. Sex violence and celebrity worship abound in our culture driving a mass media frenzy reminiscent of pagan idolatry. This book is a clear warning that the church is being cut off from its word-based heritage and that we are open to abuse by those who exploit the image but neglect the Word. Thoughtful readers will find this a challenging call to be critical about the images bombarding our sense and to affirm that the Word is everything. Der Cliffhanger und die serielle Narration Vincent Fröhlich, 2015-04-15. Der Cliffhanger also die Erzähltechnik in einem spannenden Moment eine serielle Erzählung zu unterbrechen steht im Zentrum dieser Studie. Vincent Fröhlichs Analysen reichen von 1901 Nacht der viktorianische Fortsetzungsromane französische Feuilletonromane Kinserien Radio Seifenopern neue TV Serien bis hin zu E Books Games und Webserien. Das Buch bietet nicht nur eine berfällige historische Perspektive auf den Cliffhanger die serielle Narration und deren Entstehungsbedingungen sondern arbeitet zudem heraus wie reich die Formen und wie vielseitig die Charakteristika dieser Forschungsgegenstände sind und wie sehr bisher ihr kultureller und narrativer Stellenwert unterschätzt wurde. *Advertising in Contemporary Society* Kim B. Rotzoll, James E. Haefner, Steven R. Hall, 1996. Why are critics upset about advertising? And why are its practitioners so defensive? Revised and extensively updated, this edition of the classic *Advertising in Contemporary Society* offers unique perspectives that will help the reader understand how and why the controversial American phenomenon of advertising generates so much heat and though much of it is passive so much acceptance. *Research in Public Relations-I* Mr. Rohit Manglik, 2023-11-23. In this book we will study about the basics of research in PR including designing questionnaires conducting surveys analyzing feedback and applying insights to develop communication strategies. **Media/impact** Shirley Biagi, 1988. Media Advocacy Mr. Rohit Manglik, 2023-11-23. In this book we will study about how media can be used as a tool for advocacy driving social change policy influence and creating public awareness on critical issues. *Selling the Air* Thomas Streeter, 1996-06-15. In this interdisciplinary study of the laws and policies associated with commercial radio and television Thomas Streeter reverses the usual take on broadcasting and markets by showing that government regulation creates rather than intervenes in the market. Analyzing the processes by which commercial media are organized Streeter asks how it is possible to take the practice of broadcasting the reproduction

of disembodied sounds and pictures for dissemination to vast unseen audiences and constitute it as something that can be bought owned and sold With an impressive command of broadcast history as well as critical and cultural studies of the media Streeter shows that liberal marketplace principles ideas of individuality property public interest and markets have come into contradiction with themselves Commercial broadcasting is dependent on government privileges and Streeter provides a searching critique of the political choices of corporate liberalism that shape our landscape of cultural property and electronic intangibles
