This textbook for advanced graduate and postgraduate veterinary students provides a comprehensive overview of clinical physiology with a focus on its application in diagnosing and managing various disorders in animals. *Fundamentals of Veterinary Pathophysiology* is divided into two main sections. The first section introduces the general aspects of clinical physiology covering intricate mechanisms such as temperature regulation, animal nutrition, and biological oxidation. It delves into topics like enzymatic regulation, metabolism, the physiology of membranes, body water, and ionic regulation. The section concludes by providing essential insights into the fundamentals of important physiological disorders and dysfunctions. The second section delves into the clinical physiology of disorders within various body systems. It covers digestive disorders in both monogastric and ruminant animals, cardiovascular and respiratory disorders, hematological disorders, neurological disorders, endocrinal disorders, urinary disorders, and lymphatic disorders. Finally, the book concludes with an in-depth examination of the clinical physiology of eye, ear, skin, male reproductive, and female reproductive disorders.

Key Features

Emphasizes the practical application of clinical physiology in the diagnosis and managing of animal disorders.
Provides understanding of intricate physiological mechanisms including temperature regulation, enzymatic regulation, and metabolic processes.
Addresses specific physiological disorders offering insights into clinical aspects related to digestive, cardiovascular, respiratory, and neurological systems.
Discusses clinical physiology associated with disorders of the eye, ear, skin, and reproductive system.

Indigenous Health Care and Ethno-medicine A. N. Sharma, Rajesh K. Gautam, Ajay K. Gharami, 2006
This book is a collection of 25 research papers/articles focused on different aspects of indigenous health care practices among different population groups of different parts of India, Romania, and Pacific regions like Australia, Polynesia, and Melanesia. The ethno-medicine used among various populations for cure of different ailments are recorded and documented in many of the papers/articles included in the book. Beside that, knowledge, attitude, and practice related to different kinds of health care is also highlighted in various primitive groups. The supernatural causes and practices are the part of health care. The impact of modernization, industrialization, and globalization has both positive and negative impact on indigenous knowledge, and many such practices are going to be extinct. The book is a humble attempt in the direction of preservation or conservation of indigenous knowledge and practices. The book is multidisciplinary in nature. It would be supportive for researchers working in the same direction. Simultaneously, it would be helpful for academicians, policy planners, health administrators, and pharmaceutical researchers, medical practitioners, students of medicine, pharmacy, anthropology, sociology.
