BEAR
STEARNS

To: All General & Limited Partners Date: October 5, 1978

From: Alan C. Greenberg CC:

Subject:

Bear Stearns is moving forward at an accelerated rate and everybody is contributing. It is absolutely essential for us to be able to talk to our partners at all times. All of us are entitled to rest, lunch, play golf and go on vacation. But, you must leave word with your secretary or assistant where you can be reached at all times. Decisions have to be made and your input can be important!

I conducted a study of the 500 firms that have disappeared from Wall Street over the last few years, and I discovered that 65.54% went out of business because the important people did not leave word where they went when they left their desk if even for 15 minutes.

That thing will not occur here.

Memo

BEAR
STEARNS

To: All General & Limited Partners Date: March 13, 1979

From: Alan C. Greenberg CC:

Subject:

The Executive Committee last night approved a group of people who will be asked to become Limited Partners of Bear, Stearns & Co., subject to the approval of the other General Partners. You will be receiving this list shortly.

Carl Boldron has just informed me that we have signed a \$10 million long-term loan agreement with a major insurance company. This will replace our loan with the First National Bank of Chicago. The implications and the actual dollar savings of this agreement are of tremendous importance to Bear, Stearns & Co.

I also just received the P and L results for February and, in my opinion, they were great. These three items will be covered in detail at the Partners' Meeting in March 1979.

The developments at Bear Stearns certainly seem to be positive and as a result we will, of course, intensify our surveillance of all positions and exposures. You know how I feel about the dangers of overconfidence.

It certainly looks like we have a dynamic future in store as long as we remember the words of the famous philosopher, Rabinchinkel Molotz Anayshak: "There will be great success as long as there does not believe there can ever be perfection."

Memos From The Chairman:

Memos from the Chairman Alan C. Greenberg, 1997-06-10 When he assumed the position of Chairman of the Board of Bear Stearns in 1978 Alan C Greenberg found himself with the unenviable task of meeting and surpassing the rigorous leadership standards set by his legendary predecessor Cy Lewis the man who was credited with having made Bear Stearns what it then was For nearly two decades now Ace Greenberg as he is affectionately known has kept Bear Stearns on top through a unique and provocative business management philosophy a philosophy that he frequently and effectively communicates to employees through a series of no holds barred company memos Now the inimitable Greenberg style sparks a priceless collection of his most inspirational insightful and instructional memoranda *Memos From the Chairman* affords a rare glimpse at the motivational thoughts and management techniques of one of the corporate world's most brilliant leaders Many years ago Where Are the Customers Yachts through a humorous look at Wall Street dispensed some of the best investment advice ever written In this book Ace has applied the same treatment to managerial advice with equal success Warren Buffett from the Foreword to *Memos From the Chairman* I love this book If I didn't have a dreaded MBA I might even at age 53 apply for a job at Bear Stearns Tom Peters

Pacification Richard A Hunt, 2018-02-05 During the Vietnam War the United States embarked on an unusual crusade on behalf of the government of South Vietnam Known as the pacification program it sought to help South Vietnam's government take root and survive as an independent legitimate entity by defeating communist insurgents and promoting economic development and political reforms In this book Richard Hunt provides the first comprehensive history of America's battle for hearts and minds the distinctive blending of military and political approaches that took aim at the essence of the struggle between North and South Vietnam Hunt concentrates on the American role setting pacification in the larger political context of nation building He describes the search for the best combination of military and political action incorporating analysis of the controversial Phoenix program and illuminates the difficulties the Americans encountered with their sometimes reluctant ally The author explains how hard it was to get the U S Army involved in pacification and shows the struggle to yoke divergent organizations military civilian and intelligence agencies to serve one common goal The greatest challenge of all was to persuade a surrogate the Saigon government to carry out programs and to make reforms conceived of by American officials The book concludes with a careful assessment of pacification's successes and failures Would the Saigon government have flourished if there had been more time to consolidate the gains of pacification Or was the regime so fundamentally flawed that its demise was preordained by its internal contradictions This pathbreaking book offers startling and provocative answers to these and other important questions about our Vietnam experience
