Media And Society 5th Edition:

Media Studies: Media history, media and society Pieter Jacobus Fourie, 2007 While examining exactly who owns the media and who produces the media this text manages to encompass the systematic critical and analytical media in all its forms and concludes that the media is one of the most important generators and disseminators of meaning in contemporary society Investigating the power relationships between the media and politics culture economy society and above all democracy this resource is well suited for anyone with an interest in the modern role of media in society **Media/Society** David Croteau, William Hoynes, 2013-11-06 Media Society Industries Images and Audiences Fifth Edition by David Croteau and William Hoynes provides a framework for understanding the relationship between media and society and helps readers develop skills for critically evaluating both conventional wisdom and their own assumptions about the social role of the media Retaining its acclaimed sociological framework the Fifth Edition covers new studies includes up to date material about today's rapidly changing media landscape and significantly expands discussions of the new media world including digitization the Internet the spread of mobile media devices the role of user generated content the potential social impact of new media on society and new media's effect on traditional media outlets Updated research the latest industry data and current examples from popular media illustrate enduring themes in the sociology of media The Cultural Industries David Hesmondhalgh, 2018-12-14 Bringing together a huge range of research theory and key concepts David Hesmondhalgh provides an accessible yet critical exploration of cultural production and consumption in the global media landscape This new edition explores the effects of digitalisation on culture and analyses the influence of IT and tech companies like Google Apple Amazon and Facebook on the cultural industries **Mass Communication in India, Fifth Edition** Keval J. Kumar, 2020-12-10 Third Completely Revised and Updated Edition Mass Communication in India is a result of the author's in depth study and understanding of the media The book deals with a general introduction to Communication Theory Advertising Television Effects of Media and Development In short the book is designed to give the student of Mass Communication a general and comprehensive view of the modern and traditional media in India It meets the objective of being a text book as well as a book that gives an overview of mass communication in India **Critical Political Economy of the Media** Jonathan Hardy, 2014-06-20 How the media are organised and funded is central to understanding their role in society Critical Political Economy of the Media provides a clear comprehensive and insightful introduction to the political economic analysis of contemporary media Jonathan Hardy undertakes a critical survey of political economy scholarship encompassing worldwide literature issues and debates and relationships with other academic approaches He assesses different ways of making sense of media convergence and digitalisation media power and influence and transformations across communication markets Many of the problems of the media that prompted critical political economy research remain salient he argues but the approach must continue to adapt to new conditions and challenges Hardy advances the case for a

revitalised critical media studies for the 21st century Topics covered include media ownership and financing news and entertainment convergence and the Internet media globalisation advertising and media alternative media media policy and regulation Introducing key concepts and research this book explains how political economy can assist students researchers and citizens to investigate and address vital questions about the media today *Nigerian Media Industries in the Era of Globalization* Unwana Samuel Akpan, 2023-01-09 In *Nigerian Media Industries in the Era of Globalization* editor Unwana Samuel Akpan provides a timely collection of relevant key and well informed contributions on the Nigerian media industries in a changing media landscape This collection assembles both media professionals and professors of media practice and theory to address how the Nigerian media industry has changed in a globalized world The chapters apply scholarship research and industry experience to modern media narratives as well as a blend of Nigerian cultural concepts and idioms of communication The contributors provide a historicized account of the Nigerian indigenous media systems and Nigerian mainstream media industry examine media law in Nigeria and media ownership in Nigeria express concerns over fake news in relation to elections explore changes in journalism broadcasting health communication organizational communication AI in countering terrorism sports media and draw conclusions on how the media has changed in digital spaces This book is essential for media scholars and media professionals who are interested in the growth and survival of the Nigerian media in the era of globalization **Event Power** Chris Rojek, 2013-02-21 Rojek's argument is a psychological one although his message is political global events build on people's needs to feel empowered and jointly engaged in the pursuit of a higher purpose they allow a break from daily routines provide an illusion of intimacy and social membership and create a sense of self validation and personal gratification In short participation in such events makes us feel good At the same time the real effect of global events seems to be the maintenance of global inequality and social injustice as well as huge profits for the organizations involved in planning commercializing and securing these happenings In sketching out this palliative function of global events from the perspective of people's needs on the one hand and unveiling their puppet masters backstage on the other Rojek's book presents a compelling account of the role of organized events in modern society Organization Studies Events dominate our screens our lives and increasingly global geopolitics Analysis of events and their management has remained rooted in leisure and management studies until now This break through book provides an introduction to event management while also situating events in questions of power and social control Rojek powerfully argues that events are essential elements in corporate state partnerships of invisible government that have revived the romance of charity as to form illusory communities while cloaking power imbalances and social inequalities Events are moving politics from the old idea of the personal is political to the new more seductive notion that representation is resistance Wielding rich case studies from the World Cup and the Olympics to Live Aid Burning Man and Mardi Gras Rojek presents a dazzlingly original account of communication power social ordering and control It is essential reading in media communication studies and across the

social sciences *Culture, Politics and Climate Change* Deserai A. Crow, Maxwell T. Boykoff, 2014-03-21 Focusing on cultural values and norms as they are translated into politics and policy outcomes this book presents a unique contribution in combining research from varied disciplines and from both the developed and developing world This collection draws from multiple perspectives to present an overview of the knowledge related to our current understanding of climate change politics and culture It is divided into four sections Culture and Values Communication and Media Politics and Policy and Future Directions in Climate Politics Scholarship each followed by a commentary from a key expert in the field The book includes analysis of the challenges and opportunities for establishing successful communication on climate change among scientists the media policy makers and activists With an emphasis on the interrelation between social cultural and political aspects of climate change communication this volume should be of interest to students and scholars of climate change environment studies environmental policy communication cultural studies media studies politics sociology *McQuail's Media and Mass Communication Theory* Denis McQuail, Mark Deuze, 2020-04-09 A new edition of the seminal textbook in media and mass communication Denis McQuail's classic book has been revised and updated by Mark Deuze to reflect the contemporary media landscape and to speak to needs of today's media students **Broadcasting in the UK and US in the 1950s** Jamie Medhurst, Siân Nicholas, Thomas O'Malley, 2016-05-11 In an age of digital communications where radio satellite television and computing have come together to allow instant access to information and entertainment from around the globe it is sometimes easy to overstate the break with the recent past that these developments imply However from a historical perspective it is important to recognise that the national dimensions of communications including broadcasting have always been framed within different sets of international political economic cultural and technological relationships Television so easily seen as the last technology to succumb to the effects of internationalisation subsequent to the technical and political changes of the late twentieth century was in fact from the outset embedded in international interactions In recent years a focus has been placed on the longstanding sets of transnational relationships in place in the years after World War II when television established itself as the dominant form of mass communication in Europe and America Recent research has adopted a comparative approach to television history which has examined the interactions within Europe and between Europe and America from the 1950s onwards In addition there has been increasing interest in the idea of television in the Anglophone world looking at transatlantic interactions from the early phases of the development of the technology through the growing market for formats in the 1950s and outwards to connections with Australia and Hong Kong in these years The essays in this collection contribute to this area by bringing together in one volume work which focuses on both national developments in UK and US broadcasting in the 1950s to allow for reflection on how those systems were developing and being understood within those societies and raise issues about the ways in which the two systems interacted and can be usefully compared Some contributions deliberately focus on international issues while others embed the international

dimension within them and still others offer a critical commentary on developments during the 1950s The book will appeal primarily to students and researchers in media and communication studies television studies radio studies and history but will also be of interest to all who have an interest in developments in communication in the post war period *Crime, Media and Culture* Greg Martin, 2018-12-07 Working broadly from the perspective of cultural criminology *Crime Media and Culture* engages with theories and debates about the nature of media audience relations examines representations of crime and justice in news media and fiction and considers the growing significance of digital technologies and social media The book discusses the multiple effects media representations of crime have on audiences but also the ways media portrayals of crime and disorder influence government policy and lawmaking It also considers the processes by which certain stories are selected for their newsworthiness Also examined are the theoretical conceptual and methodological underpinnings of cultural criminology and its subfields of visual criminology and narrative criminology Drawing on case studies and empirical examples from the increasingly blurred worlds of reality and entertainment the dynamics of crime media and culture are illuminated across a range of chapters covering topics that include moral panics folk devils and trial by media fear of crime cop shows and courtroom dramas female criminality and child on child killing serial killers surveillance new media and policing organized crime and state crime *Crime Media and Culture* will be an invaluable resource for undergraduate and postgraduate students interested in criminology and media studies The book will also prove useful for lecturers and academic researchers wishing to explore the intersections of crime media and cultural inquiry *Ecopiety* Sarah McFarland Taylor, 2019-11-12 Tackles a human problem we all share the fate of the earth and our role in its future Confident that your personal good deeds of environmental virtue will save the earth The stories we encounter about the environment in popular culture too often promote an imagined moral economy assuring us that tiny acts of voluntary personal piety such as recycling a coffee cup or purchasing green consumer items can offset our destructive habits No need to make any fundamental structural changes The trick is simply for the consumer to buy the right things and shop our way to a greener future It s time for a reality check *Ecopiety* offers an absorbing examination of the intersections of environmental sensibilities contemporary expressions of piety and devotion and American popular culture Ranging from portrayals of environmental sin and virtue such as the eco pious depiction of Christian Grey in *Fifty Shades of Grey* to the green capitalism found in the world of mobile device carbon sin tracking software applications to the socially conscious vegetarian vampires in *True Blood* the volume illuminates the work pop culture performs as both a mirror and an engine for the greening of American spiritual and ethical commitments Taylor makes the case that it is not through a framework of grim duty or obligation but through one of play and delight that we may move environmental ideals into substantive action **Political Communication** Heather Savigny, 2016-12-02 This major international text introduces the key themes issues and theoretical approaches in the field A central concern is to put the politics back into the study of communication by posing key critical questions about power and

ideology what is being communicated by whom how in whose interests and with what effects and implications **News and News Sources** Paul Manning, 2001 News and News Sources offers a fresh introduction to the sociology of news News and News Sources reviews new research in the rapidly expanding field of political communication drawing upon material from Britain Europe and the USA provides a clear introduction to the processes of news production and the implications of the rise in global electronic news communication and assesses the various theoretical frameworks available for analysing these developments including functionalism pluralism Marxism political economy hegemony theory discourse theory and postmodernism Visual Methodologies Gillian Rose, 2016-03-26 Now in its Fourth Edition Visual Methodologies An Introduction to Researching with Visual Materials is a bestselling critical guide to the study and analysis of visual culture Existing chapters have been fully updated to offer a rigorous examination and demonstration of an individual methodology in a clear and structured style Reflecting changes in the way society consumes and creates its visual content new features include Brand new chapters dealing with social media platforms the development of digital methods and the modern circulation and audiencing of research images More Focus features covering interactive documentaries digital story telling and participant mapping A Companion Website featuring links to useful further resources relating to each chapter A now classic text Visual Methodologies appeals to undergraduates graduates researchers and academics across the social sciences and humanities who are looking to get to grips with the complex debates and ideas in visual analysis and interpretation

Crisis and the Media Marianna Patrona, 2018-02-15 How is crisis one of the most resonating words in the modern world related to the mass media Is crisis independent of the discourse practices of media text and talk This book is a collection of studies that brings together current research into the ways in which crisis is constructed and communicated in contemporary media discourse Studies in this book advance our understanding of crises as social events that are discursively constructed performed responded to but also rehearsed as a form of social practice Relying on the application of techniques of discourse analysis and critical discourse analysis CDA including visual analysis the book provides a wealth of empirical evidence on how crisis is mediated across a range of written oral and visual media The book will be of interest to students and scholars of media who combine an interest in discourse analysis with disciplines as diverse as media and cultural studies political communication and sociology Media, Culture and Society Paul Hodkinson, 2024-04-19 Combining a critical survey of the field with a finely judged assessment of cutting edge developments this book is the must have text for any undergraduate student studying media and communication studies **Communication Technology and Social Change** Carolyn A. Lin, David J. Atkin, 2014-04-08 Communication Technology and Social Change is a distinctive collection that provides current theoretical empirical and legal analyses for a broader understanding of the dynamic influences of communication technology on social change With a distinguished panel of contributors the volume presents a systematic discussion of the role communication technology plays in shaping social political and economic influences in society within specific domains and

settings Its integrated focus expands and complements the scope of existing literature on this subject Each chapter is organized around a specific structure covering Background offering an introduction of relevant communication technology that outlines its technical capabilities diffusion and uses Theory featuring a discussion of relevant theories used to study the social impacts of the communication technology in question Empirical Findings providing an analysis of recent academic and relevant practical work that explains the impact of the communication technology on social change and Social Change Implications proposing a summary of the real world implications for social change that stems from synthesizing the relevant theories and empirical findings presented throughout the book Communication Technology and Social Change will serve scholars researchers upper division undergraduate students and graduate students examining the relationship between communication and technology and its implications for society

Toward a Political Economy of Culture Andrew Calabrese, Colin Sparks, 2003-11-22 Several of the most important and influential political economists of communication working today explore a rich mix of topics and issues that link work policy studies and research and theory about the public sphere to the heritage of political economy Familiar but still exceedingly important topics in critical political economy studies are well represented here market structures and media concentration regulation and policy technological impacts on particular media sectors information poverty and media access The book also features new topics for political economy study including racism in audience research the value and need for feminist approaches to political economy studies and the relationship between the discourse of media finance and the behavior of markets

Audience Transformations Nico Carpentier, Kim Christian Schrøder, Lawrie Hallett, 2013-07-31 The concept of the audience is changing In the twenty first century there are novel configurations of user practices and technological capabilities that are altering the way we understand and trust media organizations and representations how we participate in society and how we construct our social relations This book embeds these transformations in a societal cultural technological ideological economic and historical context avoiding a naive privileging of technology as the main societal driving force but also avoiding the media centric reduction of society to the audiences that are situated within Audience Transformations provides a platform for a nuanced and careful analysis of the main changes in European communicational practices and their social cultural and technological affordances
