Troubling Sex Elaine Craig, 2012-07-01 When legal scholars or judges approach the subject of sexuality they are often constrained by existing theoretical frameworks For instance queer theorists typically focus on sexual liberty but tend not to consider issues such as sexual violence Feminist theories focus on violence but often don't give recognition to the joy of sexuality To assess the possibility of devising a legal theory of sexuality that can ensure equality without assimilation diversity without exclusion and liberty without suffering Elaine Craig examines the Supreme Court of Canada's approach to sexuality in cases that range from sexual violence to discrimination based on orientation Although the Court continues to hold an essentialist understanding of sexuality that renders certain harms invisible its feminist inspired approach to sexual violence recognizes the socially constructed nature of sexuality and produces legal reasoning that promotes sexual integrity as a common interest Blending feminist theory with the inclusiveness of queer theory Craig advances an iconoclastic approach to law and sexuality that has the power to transform both theory and practice

Classifying Genocide in International Law Onur Uraz, 2022-08-05 This book offers an in depth examination into genocide law by focusing on one of the lesser examined yet practically significant issues the substantiality requirement This refers to the requirement in international law that intended

destruction should be directed towards a substantial part of a protected group in order for an atrocity to qualify as genocide This comprehensive and detailed study draws connections between different judicial approaches to substantiality and the varying theoretical presumptions about the constitutive concepts of the crime This prima facie doctrinal problem is used as a springboard to scrutinise the broader theoretical problems underlying the legal conceptualisation of genocide The book systematically explores how the individualistic and collectivistic conceptions of the crime have been able to co exist in case law and how the different approaches to assessing substantiality have played a backdoor role between these two conceptions The work demonstrates that these two philosophical standpoints are far from effectively representing the reality of the protected groups and fully explaining the harm inherent to group destruction The book revisits the recent philosophical and sociological studies on the crime and considering ideas from the emerging relational approaches to genocide offers a third way to understand the existing legal representation of the crime and consequently the idea of substantiality It demonstrates the practical significance of its theoretical debates and applies its novel perspective through a case study on South Sudan This book will be highly useful to students and scholars with an interest in genocide studies international criminal law and legal theory It will also be of interest to policymakers engaged with issues around genocide

Against Liberalism John Kekes, 2018-10-18 Liberalism is doomed to failure John Kekes argues in this penetrating criticism of its basic assumptions Liberals favor individual autonomy a wide plurality of choices and equal rights and resources seeing them as essential for good lives They oppose such evils as selfishness intolerance cruelty and greed Yet the more autonomy equality and pluralism there is Kekes contends the greater is the scope for evil According to Kekes liberalism is inconsistent because the conditions liberals regard as essential for good lives actually foster the very evils liberals want to avoid and avoiding those evils depends on conditions contrary to the ones liberals favor Kekes argues further that the liberal conceptions of equality justice and pluralism require treating good and evil people with equal respect distributing resources without regard to what recipients deserve and restricting choices to those that conform to liberal preconceptions All these policies are detrimental to good lives Kekes concludes that liberalism cannot cope with the prevalence of evil that it is vitiated by inconsistent commitments and that contrary to its aim liberalism is an obstacle to good lives

Responsibility

on Trial Liana Georgieva Minkova, 2023-02-16 Establishing individual criminal responsibility for mass atrocities is the foundational principle of international criminal justice but this process is highly complex and is accompanied by political and legal dilemmas about its operation The book examines the drafting interpretation and application of the rules for assessing individual criminal responsibility as those rules emerge from the intense contestations among judges lawyers and academics within the legal field Focusing on the International Criminal Court ICC the book provides a rich analysis of the international debates around questions of criminal responsibility by interrogating formal legal documents and legal scholarship alongside more candid accounts interviews memoirs minutes These debates are of key importance for international criminal law and global justice because how criminal responsibility laws are construed in practice determines which conduct merits punishment and ultimately demarcates the boundaries of what are considered the gravest acts that shock humanity

Anti-Sexual Harassment Laws in India Anukriti Dixit, 2024-12-05 Through a deep dive into specific problem representations in the policymaking on anti sexual harassment at workplaces SHW in India this book makes broader sense of

gendered caste based and colonial regimes of power The author takes a poststructuralist feminist approach to illustrate how these policies disregard collective action and function as gendering and caste ing practices The book posits that India s anti SHW policies produce specific problems and subjects while neglecting certain other problem and subject formulations The author offers guidelines for how diverse subjects must be given equal epistemic credibility to make the policy milieu intersectionally equitable This book will be of interest to scholars and policymakers in the fields of Gender Studies Law Sociology and Organizational Studies **Perspectives on Moral Responsibility** John Martin Fischer, Mark

Ravizza, 2018-07-05 No detailed description available for Perspectives on Moral Responsibility *History and Morality* Donald Bloxham, 2020-07-02 Against majority opinion within his profession Donald Bloxham argues that it is legitimate often unavoidable and frequently important for historians to make value judgements about the past History and Morality draws on a wide range of historical examples and its author s insights as a practicing historian Examining concepts like impartiality neutrality contextualisation and the use and abuse of the idea of the past as a foreign country Bloxham s book investigates how far tacit moral judgements infuse works of history and how strange those histories would look if the judgements were removed The author argues that rather than trying to eradicate all judgemental elements from their work historians need to think more consistently about how and with what justification they make the judgements that they do The importance of all this lies not just in the responsibilities that historians bear towards the past responsibilities to take historical actors on those actors own terms and to portray the impact of those actors deeds but also in the role of history as a source of identity pride and shame in the present The account of moral thought in History and Morality has ramifications far beyond the activities of vocational historians *Culpable Carelessness* Findlay Stark, 2016-10-20 A doctrinal and theoretical analysis of culpability for unjustified risk taking in Anglo American criminal law
