Poland and Slovakia: Bilateral Relations in a Multilateral Context (2004-2016) Joanna Dyduch,Igor Kosir,Radoslaw Kupczyk,Jaroslav Usiak,2017-04-25 This book investigates the

complex relations between the Republic of Poland and the Slovak Republic in the context of ongoing processes in the European Union's political and economic system. The basic assumption of the study is that Polish-Slovak relations are affected and shaped not only by the interaction between the two of them but also by the dynamics of the European and global international environment. The authors explore different aspects of the interconnectedness of Warsaw and Bratislava. This includes the analysis of political, economic and social dimensions of bilateral relations in the multilateral context. One of the goals of this volume is to define areas and spheres of Poland's and Slovakia's common interest as well as to point out those areas with the highest potential for development. It also defines and analyzes problematic issues in common relations that could be seen as obstacles in developing cooperation in specific areas and politically strategic areas like foreign and security policy. Moreover, the book seeks to measure the extent to which Polish-Slovak relations are affected by the European integration process.

Introduction to Information Systems R. Kelly Rainer, Brad Prince, Cristobal Sanchez-Rodriguez, Ingrid Spletstoesser-Hogeterp, Sepideh Ebrahimi, 2020-09-29

As digital transformation becomes increasingly central to effective corporate strategy, today's students must understand information systems' role as the backbone to all organizations. Known for its rich Canadian content and focus on active learning, *Introduction to Information Systems*, Fifth Canadian Edition, shows students how they can use IS to help their employers increase profitability, improve customer service, manage daily operations, and drive impact in their markets. The popular 'What's in IT for Me' framework empowers students in accounting, finance, marketing, human resources, production operations, management, and management information systems (MIS) to connect their majors to specific IT topics that demonstrate value in the organizations they join.
