**Colin Rees**

## **Midwifery Questions Answers:**

**Contexts of Midwifery Practice** Helen Muscat, Heather Passmore, Sam Chenery-Morris, 2015-05-18 In order to become skilled and competent practitioners student midwives need to understand the complex individual family and societal issues they will encounter By introducing the contemporary context of midwifery practice this book helps students to understand the problems many women face in society The book covers topics including violence mental and sexual health the rising obesity epidemic and increases in numbers of women from non UK countries The authors emphasise the fact that students need to be aware of their public health responsibilities and discuss various health promotion strategies **An Introduction to Research for Midwives** Colin Rees, 2011-04-11 This title is now available under ISBN 9780702051654 Struggling to understand the language of research Need to understand the basic principles and processes of research Do you find it difficult to know how to apply research to clinical practice This third edition of Introduction to Research for Midwives is the answer In simple language it explains the world of research both for those who must use it as part of evidence based practice and those undertaking research The content is particularly student friendly and provides clear guidelines on critiquing research articles and producing successful reviews of the literature with many tips on producing assignments that really work All midwives and other health professionals will find this book invaluable in applying research to their own practice No prior knowledge of research needed Written in a simple practical style Applied to the context of evidence based practice Comprehensive glossary of research terms Quantitative and qualitative research approaches clarified and illustrated Time saving study skills highlighted Key points summaries for quick revision Clear emphasis on evidence based practice All chapters include new material Major chapters extensively rewritten Up to date references and examples New research techniques included Glossary updated and simplified **Midwifery Practice** Jo Alexander, Valerie Levy, Sarah Roch, 1993-11-11 This latest volume in the immensely popular Midwifery Practice Series deals with a further set of important issues this time drawn from all three stages of care during pregnancy The chapter structure adopted in the first three books is retained and as before presentation of a broad ranging survey and analysis of key research literature placed in the context of clinical practice is the guiding philosophy behind the whole book **Decision-Making in Midwifery Practice** Maureen D. Raynor, Jayne E. Marshall, Amanda Sullivan, 2005-06-01 The book looks at a broad perspective of decision making and each chapter focuses on a specific aspect related to making crucial decisions Following an initial introduction the book explores the concept of autonomy and the many factors that influence autonomous practise The role of knowledge in decision making using evidence to inform decisions as well as different approaches to decision making are also examined including the traditional or rational approach decision analysis and the development of professional judgement Dilemmas arise when decisions are made and therefore ethical decision making is an important component of this book Management decisions may be different from those related to giving specific care to women hence one chapter focuses on making management decisions

Emphasis is also placed on the role of the midwife in helping women make their own decisions the role of reflection in enhancing the decisions midwives make and the support midwives can receive from their Supervisor of Midwives Flowcharts explain and facilitate the decision making process A very practical approach to decision making in midwifery with contributions from midwives who have considerable experience in this area Provides guidelines on how to achieve successful autonomous midwifery practice enabling theory to be effectively applied to practice Includes coverage of management roles and decision making as well as clinical scenarios offering frameworks and flowcharts to guide the inexperienced Suggests different approaches to making difficult decisions [Ask a Midwife Midwivesonline.com](http://www.midwivesonline.com),2008-08-01 All your pregnancy and birth questions answered by experienced midwives What s best to eat during pregnancy How many minutes apart should my contractions be What s a great tip for a good night s sleep When it comes to dispensing care advice and friendly reassurance during pregnancy and labour midwives are the health professionals mothers want to turn to Find 1 000 real life questions to midwives answered with up to date information you can trust Covers everything you need to know from conception to the first weeks of life with a new baby Draw on the experience of long term midwife Catherine Parker Littler and [www midwivesonline com](http://www.midwivesonline.com) Ask A Midwife is like having your own a midwife on call 24 hours a day *The Handbook of Midwifery Research* Mary Steen,2025-09-29 An accessible introduction to the spectrum of research in maternity care The Handbook of Midwifery Research Second Edition enables midwives and student midwives to search and make sense of research evidence write research proposals and undertake and disseminate research studies Written in a concise and accessible style this book includes useful tools and techniques to keep readers up to date with the best available evidence to apply to their own clinical practice This second edition has been extensively revised to reflect current midwifery research and involves a range of study designs The book is divided into three parts understanding research undertaking research and publishing research The Handbook of Midwifery Research includes information on Different types of reviews and steps to assess them when little information is published on a topic How to use a search strategy and search terms including the PRISMA guidelines and flowcharts to show search stages systematically Critical analysis of reported research and integrating results and findings Quantitative and qualitative data collection methodologies and mixed methods with specifics on convergent sequential explanatory exploratory and hybrid study designs The history and role of ethics in healthcare midwifery and research governance The importance of the links between research education policies and clinical practice With case studies learning objectives and clear examples throughout The Handbook of Midwifery Research is an essential learning resource for any midwife or student wanting to approach research with confidence *Introduction to Research for Midwives,with Pageburst online access*,3 Colin Rees,2011-01-01 Are you struggling to understand the basic principles and jargon used in research Are you evaluating research articles or doing a literature review Packed with practical advice and tips that really work this is the book for you Research is now a fundamental part of midwifery practice but not everyone finds it easy This introductory text

explains the world of research from the viewpoint of both those carrying out the research and those using the results of research In simple language and with clear examples it demonstrates how quantitative and qualitative research projects are constructed and how they are evaluated This book enables midwives midwifery students and other health professionals to apply research to their own practice and to evaluate existing research No understanding or prior experience of research is required Written in a simple practical and accessible style Ensures evidence based practice through a critical understanding of research A comprehensive glossary of research terms cuts through the jargon Up to date examples of both quantitative and qualitative research Practical time saving study skills features on critiquing articles and reviewing the literature Each chapter examines a topic from the viewpoint of those carrying out research and those applying the results to practice Key points summarise essential information for quick revision Current health care evidence based practice context Up to date examples of research projects

*Questions and Answers on Immigration in Britain* Farid Raymond Anthony, 2013-12-02 This guide to immigration to Britain uses a question and answer format to provide information in simple English It ranges over visitors professional workers students business people working in the UK settlement asylum offences and deportation appeals and British nationality

*Midwifery: Best Practice Volume 5* Sara Wickham, 2009-01-29 This is Volume 5 in the Midwifery Best Practice series Each of the volumes in this Series is built around the familiar core of four main topic areas relevant to midwifery pregnancy labour birth postnatal and stories reflection and also includes a number of focus on sections These are different in each volume and reflect a wide range of key and topical issues within midwifery Each volume builds upon the others to provide a comprehensive library of articles that shows the development of thought in key midwifery areas Volume 5 offers a range of wholly new topic areas within the focus on sections covering the birthing environment women midwives and risk holistic health and working international stories A practical reference source containing a wide range of articles research and original material in an easily accessible format Volume 5 offers a more interactive learning experience by inviting midwives to create their own questions before reading the articles and then returning to these afterwards for reflective thought Diverse opinions on selected topics provide a comprehensive resource for debate and discussion Unique approach includes ideas on how to turn reading into professional development activities Includes 60 articles from The Practising Midwife 2004 5 4 research articles from Midwifery 2004 5 3 articles from The Journal of Midwifery and Women s Health 2003 5 and 5 original articles commissioned for this book 60 articles from The Practising Midwife 2004 05 4 research articles from Midwifery 2004 05 3 articles from The Journal of Midwifery and Women s Health 2003 05 5 original articles commissioned for this book
