Future of US-Mexico Relations Tony Payan, Alfonso Lopez de la Osa Escribano, Jesus Velasco, 2020-04-30 The editors of this collection of sixteen articles argue the relationship between the United States and Mexico is at its most tenuous in recent memory Each article explores the future of US Mexico relations focusing on relevant topics such as trade water drugs health immigration environmental issues and security Employing a strategic foresight methodology the authors use past trends and identify pivotal drivers to predict based on indicators at least three possible outcomes for the next few decades a baseline or continuity scenario an optimistic version and a pessimistic one They also

articulate the implications each forecast has for both nations Most chapters are co written by a scholar from the United States and another from Mexico While acknowledging it is impossible to predict the future they nonetheless describe what could occur Ultimately the authors of the articles in this fascinating volume make recommendations to achieve a peaceful integrated and prosperous North America that will drive the world economy The book is required reading for anyone interested in the binational relationship and the well being of citizens in both countries The U.S.-Honduras Remittance Corridor Isaku Endo,Sarah Hirsch,Jan Rogge,Kamil Borowik,2010-03-12 This paper provides an overview of remittances and migration between Honduras and the United States and analyzes the remittance regulatory and market environment including financial inclusion strategies transnational economic activities and the impact of remittances on the Honduran economy The U S Honduras Remittance Corridor makes policy recommendations to the authorities of Honduras and the United States especially for regulatory reforms that promote the integrity and efficiency of money transfer businesses We also recommend the development of financial infrastructures in rural areas for better distribution of remittances Furthermore we suggest that public policy should be more focused on building an environment for investment in the community and developing local businesses that export to Honduran communities abroad *Global Migration and Development* Ton van Naerssen,Ernst Spaan,Annelies Zoomers,2008-02-13 This volume addresses the question to what extent and under what conditions does international migration contribute to local and national development **The Routledge Handbook of Comparative Rural Policy** Matteo Vittuari,John Devlin,Marco Pagani,Thomas G. Johnson,2019-10-16 This volume represents the result of almost two decades of trans Atlantic collaborative development of a policy research paradigm the International Comparative Rural Policy Studies program Over this period dozens of scientists from different disciplines but with a common interest in rural issues and policy have collaboratively studied the policies in North America Europe and other parts of the world A core element of the book is the idea and practice of comparative research and analysis what can be learned from comparisons how and why policies vary in different contexts and what lessons might or might not be transferable across borders It provides skills for the use of comparative methods as important tools to analyze the functioning of strategies and specific policy interventions in different contexts and a holistic approach for the management of resources in rural regions It promotes innovation as a tool to valorize endogenous resources and empower local communities and offers case studies of rural policy in specific contexts The book largely adopts a territorial approach to rural policy This means the book is more interested in rural regions their people and economies and in the policies that affect them than in rural sectors and sectoral policies per se The audience of the book is by definition international and includes students attending courses in agricultural and rural policy rural and regional studies and natural resource management lecturers seeking course material and case studies to present to their students in any of the courses listed above professionals working in the field of rural policy policy makers and civil servants at different levels seeking tools

Handbook of Health and Migration in Latin America and the Caribbean Alfonso Urzúa,Baltica Cabieses,2025-04-30 This handbook presents a comprehensive overview of theories and scientific evidence related to the complex and dynamic relationship between migration and population health in Latin America and the Caribbean According to the International Organization for Migration IOM it is estimated that as of 2020 there were more than 281 million international migrants around the world From that total 43 million are in Central and South America and the Caribbean But despite the relevance of migratory movements in these regions most of the scientific knowledge about health and migration is produced by researchers from the Global North which has produced a significant North South divide that profoundly

affects how knowledge is theorized researched and transferred into practice globally This volume aims to contribute to reducing this gap by bringing together chapters that discuss health and migration in Latin America and the Caribbean based mainly on publications and scientific reports produced in the region and written by local experts coming from both the health and social sciences For too long research and policy in global health have been predominantly influenced by North American and European institutions perspectives and priorities In contrast Latin America brings forward a distinctive and rich research tradition in the health sciences with a vibrant research community dedicated to social medicine and critical approaches in social epidemiology These perspectives are particularly well suited for analyzing the social structural and political determination of health inequities including those related to migration This handbook therefore is not only an academic contribution but a vital call for regionally grounded research innovative theoretical approaches and a much needed rebalancing of the global discourse on migration and health Michael Knipper Lancet Migration Regional Focal Point for Latin America Some chapters of this handbook were originally written in Spanish and translated into English with the help of artificial intelligence A subsequent human revision was done primarily in terms of content
