

## Mitosis Notes

Cell division occurs in a series of stages, or phases.

### 1st: INTERPHASE

- Chromosomes are copied (# doubles)
- Chromosomes appear as threadlike coils (chromatin) at the start, but each chromosome and its copy (sister chromosome) change to sister chromatids at end of this phase

### 2nd: PROPHASE

- Mitosis begins (cell begins to divide)
- Centrioles (or poles) appear and begin to move to opposite ends of cell
- Spindle fibers form between the poles

### 3rd: METAPHASE

- Chromatids (or pairs of chromosomes) attach to the spindle fibers

### 4th: ANAPHASE

- Chromatids (or pairs of chromosomes) separate and begin to move to opposite ends of the cell

### 5th: TELOPHASE

- Two new nuclei form
- Chromosomes appear as chromatin (threads rather than rods)
- Mitosis ends

### 6th: CYTOKINESIS

- Cell membrane moves inward to create two daughter cells - each with its own nucleus with identical chromosomes

The Transition, Initiated by Copernicus and Galileo, from Religion to Science Lawrence Wood,2017-07-06 Have you ever wondered Why two diametrically opposite explanations of ourselves Religion and Science coexist As this book explains the reason is one explanation began before the other The first explanations development began thousands of years ago when our gradually evolving brains and minds awoke to an unknown possibly threatening environment Unfortunately attempts to explain this strange environment were frustrated by illusions such as the apparent motion of the sun moon and stars around the earth which clouded our limited observational capability such as our inability detect constant motion thwarting the developing human minds ability to correctly explain observations These limitations ultimately led to a totally incorrect explanation we reside in a very small young unchanging universe revolving about us created by a supernatural being God a belief system termed Religion About 500 years ago the formulation of the second explanation was initiated when

astute investigators such as Copernicus and Galileo using improved new observation instruments such as the telescope and microscope began to realize the existing illusion based religious explanations could not possibly be correct Author Lawrence Wood introduces the brilliant investigators who resolved the illusions by developing radically new explanations of the illusions an explanation system termed Science many still cannot accept hence the coexistence of religion and science If you are one of those trying to bridge the gulf between your religious beliefs which have become increasingly difficult to accept and the strange new world of science this book will help you immeasurably Gcse Aqa Biology Lynn Henfield,2006-06
