Barron's Profiles of American Colleges ,2005 **Herbert Marcuse** Malcolm Miles,2011-12-05 When capitalism is clearly catastrophically out of control and its excesses cannot be sustained socially or ecologically the ideas of Herbert Marcuse become as relevant as they were in the 1960s This is the first English introduction to Marcuse to be published for decades and deals specifically with his aesthetic theories and their relation to a critical theory of society Although Marcuse is best known as a critic of consumer society epitomised in the classic One Dimensional Man Malcolm Miles provides an insight into how Marcuse s aesthetic theories evolved within his broader attitudes from his anxiety at the rise of fascism in the 1930s through heady optimism of the 1960s to acceptance in the 1970s that radical art becomes an invaluable progressive force when political change has become deadlocked Marcuse s aesthetics of liberation in which art assumes a primary role in interrupting the operation of capitalism made him a key figure for the student movement in the 1960s As diverse forms of resistance rise once more a new generation of students scholars and activists will find Marcuse s radical theory essential to their struggle

Root Cellars in America James E. Gage,2018-03-01 For most people the term root cellar evokes an image of a brick or stone masonry subterranean structure tunneled into a hillside These classic root cellars are only one of a number of different types of structures used to preserve root crops vegetables and fruits over the past 400 years The other structures include subfloor pits cooling pits house cellars barn cellars field root pits trenches and root houses Root Cellars in America provides a history of all the structures discusses their design principles and details how they were constructed The text is accompanied by period illustrations from the agricultural literature along with archaeological photographs There has been a long standing debate whether the stone slab roof and corbelled beehive shaped subterranean structures in northeastern United States are root cellars or Native American ceremonial stone chambers New research indicates some are root cellars and some are ceremonial chambers The third edition has a new chapter exploring this topic Detailed guidance is provided on how to
