Plant Biology provides a modern and comprehensive overview of the fundamentals of botany while retaining the important focus of natural selection analysis of botanical phenomena and diversity. Students are first introduced to topics that should be most familiar, plant structure, proceed to those less familiar, plant physiology and development, and conclude with topics that are likely least familiar to the introductory student, genetics, evolution, and ecology. Mauseth is sure to provide the latest material on molecular biology and plant biotechnology in an effort to keep pace with these advancing areas of study. All sections are written to be self-contained, allowing for a flexible presentation of course material.

Key Features: Includes new content on molecular biology, plant biotechnology, and the most recent coverage of taxonomy and phylogeny of plants. Now available with a new electronic laboratory manual. Plants Do Things Differently boxes help students understand and compare plant biology with human biology. End of chapter study guide includes nearly 50 or more questions in each chapter, urging students to test themselves on the most important points in the chapter. Alternatives boxes encourage students to think expansively about alternative aspects of plant biology that are more advantageous in certain conditions.

Entomologia generalis, 1992

Human Biology Daniel Chiras, 2012. Written for the introductory human biology course, the Seventh Edition of Chiras' acclaimed text maintains the original organizational theme of homeostasis presented in previous editions to present the fundamental concepts of mammalian biology and human structure and function. Chiras discusses the scientific process in a thought-provoking way that asks students to become deeper, more critical thinkers. The focus on health and homeostasis allows students to learn key concepts while also assessing their own health needs. An updated and enhanced ancillary package includes numerous student and instructor tools to help students get the most out of their course.
