Education is a piece of critical philosophy that has been written from within the business school in order to examine how this sheltered process of educating in role corporate executives operates Thompson claims that executive education is based on a very simple premise that an executive executes an order and that executive education is an amelioration of that process Thompson argues that the easiest way to conceive of executive education is to treat order and execution as cognates as a single conceptual entity Thus he asks if educating executives in line with the order execution cognate involves swapping the boardroom for the classroom and in keeping with the critical tag shouldn't executive education be about questioning not only the execution but also the dominant order The author uses time as the philosophical method by which one can undo the order execution cognate question the sanctity of the cognate and thereby halt the seemingly inexorable temporal sequence from order through to those orders becoming executed This book uses Martin Heidegger's exotic philosophy of time in order to mount a philosophical challenge to the temporal sequentiality of executive education It will therefore be of great interest to academics researchers and postgraduates who are interested in Heidegger the philosophy of education and executive education It should also be essential reading for those involved in training developing and educating corporate executives

is immune to the seductive force of stories Kierkegaard recognizes the power of a story to captivate and to change us to empower and to humble us and he makes use of them as formative teachers with whom we enter into dialogue Through its examination of indirect formation in Kierkegaard through poetry and storytelling Kierkegaard on Dialogical Education explores the reaches and limits of narrative imagination and inquires into the dialogical and narrative struggle inherent in the formation of identity This book will be of interest to philosophers and educators as well as those who meet at the crossroads of philosophy education and art *Starting Your Day Right* Joyce Meyer,2004-03-15 Readers are invited to start the morning off right with 1 New York Times bestselling author Joyce Meyer s devotions for each day of the year
