[Become an Idea Machine](#) Claudia Azula Altucher, 2014-12-27 HOW DO I TRANSFORM MY LIFE The answer is simple come up with ten ideas a day It doesn't matter if they are good or bad the key is to exercise your idea muscle to keep it toned and in great shape People say ideas are cheap and execution is everything but that is NOT true Execution is a consequence a subset of good brilliant idea And good ideas require daily work Ideas may be easy if we are only coming up with one or two but if you open this book to any of the pages and try to produce more than three you will feel a burn scratch your head and you will be sweating and working hard There is a turning point when you reach idea number 6 for the day you still have four to go and

your mind muscle is getting a workout By the time you list those last ideas to make it to ten you will see for yourself what sweating the idea muscle means As you practice the daily idea generation you become an idea machine When we become idea machines we are flooded with lots of bad ideas but also with some that are very good This happens by the sheer force of the number because we are coming up with 3 650 ideas per year at ten a day When you are inspired by an extraordinary idea all of your thoughts break their chains you go beyond limitations and your capacity to act expands in every direction Forces and abilities you did not know you had come to the surface and you realize you are capable of doing great things As you practice with the suggested prompts in this book your ideas will get better you will be a source of great insight for others people will find you magnetic and they will want to hang out with you because you have so much to offer When you practice every day your life will transform in no more than 180 days because it has no other evolutionary choice Life changes for the better when we become the source of positive insightful and helpful ideas Don t believe a word I say Instead challenge yourself to try it for the 180 days and see your life transform in magical ways in front of your very eyes

as an image in someone's imagination then eventually materialized in the physical world. The same applies to the entire spectrum of human creativity and invention. From the wheel to paintings from clothing to philosophies from nuclear bombs to Pokemon. They all began as an idea. Ideas serve as the building blocks from which we create reality. Ideas are prodigiously powerful. They exist beyond time and space. Once shared, a potent idea has the ability to reshape reality as we know it. Anything and everything of the material realm is subject to the dominion of underlying ideas.

11 Steps to Become an Idea Machine provides you with a template to leverage the strength of ideas, empowering you to steer your life in whichever direction you choose. What is an idea machine? An idea machine is an individual with the ability to come up with ideas anytime, anywhere and under any circumstances. An idea machine embodies confident creativity. An idea machine is dynamic, open-minded, and impeccably clever. An idea machine adds ever-increasing value to both themselves and those around them. An idea machine is remarkably generous, as hoarding ideas only blocks one's ability to receive more. This book shows you step by step how to become an idea machine. Each step concludes with a challenge to help you integrate the information presented. In addition, there is a consolidated list of challenges which serve as a simple guide for implementing the steps into your daily life.

Ideas and Action There is a world of difference between the average person with one great idea who fears to pursue it and the idea machine who chooses out of thousands of ideas a few to bring to fruition. The average person is stagnant while the idea machine is dynamic. The average person is afraid to take action while the idea machine takes action when he or she chooses to. If you come up with an idea you wish to pursue, then yes, you need to execute it. Action is absolutely necessary in this case, which is detailed in the bonus chapter. There is no question about that. But as you will discover, idea generation in and of itself comes with a plethora of pleasantly surprising benefits. Imagine what it's like to always have access to an infinitely abundant stream of fresh ideas. Can you say wizardry? Do you want to be more creative than most people can fathom? Do you want to always be the most interesting person in the room? Do you want to provide immense value to others? Do you want to have more opportunities? Do you want to be empowered and shape your own destiny? Do you want to maximize your life in every way? Become an idea machine and join in on the fun.
