Roswell and the Reich Joseph P. Farrell, 2020-03-10 Already well known for his bestselling series of exposés on secret Nazi technology and the survival of the Third Reich after the end of World War II Oxford educated historian and physicist Joseph P Farrell here delves ever deeper into the activities of this nefarious group In his previous works Farrell has clearly demonstrated that the Nazis were clandestinely developing new and amazing technologies toward the end of WWII and that the key scientists involved in these experiments were exported to the Allied countries at the end of the conflict mainly the United States in a move called Operation Paperclip NASA director and developer of the Saturn V rocket that sent Americans to the moon Werner von Braun was one of these scientists Farrell has traced the links between ongoing Reich activities and the newly formed CIA and other defense military industrial establishments Now Farrell has meticulously reviewed the best known Roswell research from UFO ET advocates and skeptics alike as well as some little known source material and comes to a radically different scenario of what happened in Roswell New Mexico in July 1947 and why the US military has continued to cover it up to this day Farrell presents a fascinating case sure to disturb both ET believers and disbelievers namely that what crashed may have been representative of an independent postwar Nazi power an extraterritorial Reich monitoring its old enemy America and the continuing development of the very technologies confiscated from Germany at the end of the War

The Saucerian Gabriel Mckee, 2025-04-22 The strange but true biography of the colorful founder of Saucerian Books a central purveyor and promoter of flying saucer and conspiracist knowledge in the mid twentieth century Gray Barker 1925 1984 was an eccentric literary outsider filled with ideas that were out of step with the world An author and unreliable narrator of implausible stories Barker founded and operated Saucerian Books an independent publisher of books about flying saucers and other ideas at the fringes of popular discourse In The Saucerian Gabriel Mckee tells the fascinating story of Barker's West Virginia based press the unique corpus of materials it published and how office copying and self publishing techniques influenced the spread of paranormal beliefs and conspiratorial worldviews over the last century Following the development of UFO subculture Mckee explores the life and career of a larger than life hoaxer and originator of pseudoscientific ideas Ever an entertainer Barker established his reputation with one of the first flying saucer fanzines The Saucerian and with his first book the conspiratorial and sensationalistic They Knew Too Much about Flying Saucers By the close of the 1950s he had established a publishing imprint that brought out some of the strangest UFO related books of the era with a particular emphasis on flying saucer contactees Saucerian Books became a platform for those whose stories were too unusual implausible or crudely written for more mainstream publishers Though Barker himself was a skeptic he viewed the world of occult believers as a source of ongoing entertainment He also may have used the perceived eccentricity of flying saucer research or ufology to obscure his homosexuality from his small town neighbors From his place on the fringes of

midcentury American culture Barker left an unmatched legacy in conspiratorial concepts that have become prominent pop cultural folklore including the Men in Black the Mothman and the Philadelphia Experiment As a mastermind behind the fantastical Barker s promotional efforts were the precursor to contemporary conspiracism
