Agency and Consciousness in Discourse Paul Thibault, 2004-12-01 In the past two decades there has been considerable interest in the ways in which subjects are positioned in discursive practice This interest has entailed a focus on the role of language and discourse in the processes in and through which subjects are constituted in discourse However questions of agency and how it relates to consciousness have received less attention This book explores the ways in which agency and consciousness are created through transactions between self and other The book argues that it is necessary to regard body brain interactions in the context of the social and discursive practices which act upon human bodies These issues of agency and individuation are explored in relation to infant semiosis as well as in relation to children's symbolic play Thibault looks at the importance of the self-referential moral conscience in relation to the interpersonal dimension of all acts of meaning making This conscience is also connected to the development of a self-referential viewpoint which the book argues is connected to the ecosocial semiotic systems of thinking about consciousness as a complex system operating on many different levels The author discusses and evaluates the work of linguists psychologists biologists semioticians and sociologists such as Basil Bernstein Mikhail Bakhtin J J Gibson M A K Halliday Walter Kauffman Lakoff Johnson Jay Lemke Jean Piaget and Stanley Salthe to develop a new theory of agency and consciousness

Theater, Literature and Film Federico Pacchioni, 2022-07-21 With the advancement of cybernetics avatars animation and virtual reality a thorough understanding of how the puppet metaphor originates from specific theatrical practices and media is especially relevant today This book identifies and interprets the aesthetic and cultural significance of the different traditions of the Italian puppet theater in the broader Italian culture and beyond Grounded in the often overlooked history of the evolution of several Italian puppetry traditions the central and northern Italian stringed marionettes the Sicilian pupi the glove puppets of the Po Valley and the Neapolitan Pulcinella this study examines a broad spectrum of visual cinematic literary and digital texts representative of the functions and themes of the puppet A systematic analysis of the meanings ascribed to the idea and image of the puppet provides a unique vantage point to observe the perseverance and transformation of its deeper associations linking premodern modern and contemporary contexts **Labour and Value:**

Rethinking Marx's Theory of Exploitation Ernesto Screpanti, 2019-10-09 In this book Ernesto Screpanti provides a rigorous examination of Marx's theory of exploitation one of the cornerstones of Marxist thought With precision and clarity he identifies the holes in traditional readings of Marx's theory before advancing his own original interpretation drawing on contemporary philosophy and economic theory to provide a refreshingly interdisciplinary exegesis Screpanti's arguments are delivered with perspicuity and verve this is a book that aims to spark a debate He exposes ambiguities present in Marx's exposition of his own theory especially when dealing with the employment contract and the notions of abstract labor and labor value and he argues that these ambiguities have given rise to misunderstandings in previous analyses of Marx's theory of exploitation Screpanti's own interpretation is a meticulously argued counterpoint to these traditional interpretations **Labour and Value** is a significant contribution to the theory of economics particularly Marxist economics It will also be of great interest to scholars in other disciplines including sociology political science and moral and political philosophy Screpanti's clear and engaging writing style will attract the interested general reader as well as the academic theorist
