Articles focus on actual programs while placing the discussion in a scholarly context. The book is structured into 14 chapters covering various aspects of workplace culture in academic libraries including: overview of workplace culture, assessment, recruitment, acclimation for new librarians, workforce diversity, physical environment, staff morale, interaction between departments, tenure track, academic culture, mentoring, coaching, generational differences, motivation, incentives, complaints, conflict management, and organizational transparency. **Perception of Beauty** Martha Levine, 2017-10-25 The authors in this book ask us to consider whether the perception of beauty has been defined by our genetics and culture over the years, has it grown and changed? Do certain neural connections define our emotional reactions to beauty? Does beauty follow any rules or laws? Can the aspiration toward beauty be detrimental? Can we divorce ourselves from dictates and sink into a mindful connection with our internal beauty? Can we move from the superficial where beauty is only skin deep to an intense appreciation of beauty in all of its variations? The Perception of Beauty will lead to a deeper understanding and contemplation of nature, art, and the world around us.
