*The Best Version of You* Linda Miller, 2022-06-13 We all have different versions of ourselves that we show the world and depending on the day that version can be a good one not as good or hit it out of the ballpark great It's on those great days when we show up as the best of who we are that we're able to succeed in every dimension But life gets messy nobody's at their best every day and it's difficult to consistently hit home runs Inside these pages is a recipe for navigating your life in ways that will deliver health happiness and success as many days a week as possible Filled with tools and techniques holistic in nature yet practical in application fresh perspectives concrete advice and a few secret weapons this handbook is designed to help you confidently execute the bold moves and nuanced change needed to make the most of who you are and translate your personal picture of health into the version you want the world to see and hear the Best Version of You

Positive Imaging Norman Vincent Peale, 1982 The concept is a form of mental activity called imaging It consists of vividly picturing in your mind a desired goal or objective and holding that image until it sinks into your unconscious mind where it releases great untapped energies Through Positive Imaging you will learn how to Solve your money problems Outwit worry Banish loneliness Improve your health Strengthen your marriage Relate to others more successfully Discover the power available to you through Positive Imaging You can take control of your problems You can command your life This book is designed to help you do it and do it well Copyright Libri GmbH All rights reserved

**The Quick Fix** Jesse Singal, 2021-04-06 An investigative journalist exposes the many holes in today's bestselling behavioral science and argues that the trendy TED Talk friendly psychological interventions that are so in vogue at the moment will never be enough to truly address social injustice and inequality With their viral TED talks bestselling books and counter intuitive remedies for complicated problems psychologists and other social scientists have become the reigning thinkers of our time Grit and power posing promised to help overcome entrenched inequalities in schools and the workplace the Army spent hundreds of millions of dollars on a positive psychology intervention geared at preventing PTSD in its combat soldiers and the implicit association test swept the nation on the strength of the claim that it can reveal unconscious biases and reduce racism in police departments and human resources departments But what if much of the science underlying these blockbuster ideas is dubious or fallacious What if Americans' longstanding preference for simplistic self-help platitudes is exerting a pernicious influence on the way behavioral science is communicated and even funded leading respected academics

and the media astray In *The Quick Fix* Jesse Singal examines the most influential ideas of recent decades and the shaky science that supports them He begins with the California legislator who introduced self esteem into classrooms around the country in the 1980s and the Princeton political scientist who warned of an epidemic of youthful superpredators in the 1990s In both cases a much touted idea had little basis in reality but had a massive impact Turning toward the explosive popularity of 21st century social psychology Singal examines the misleading appeal of entertaining lab results and critiques the idea that subtle unconscious cues shape our behavior As he shows today s popular behavioral science emphasizes repairing improving and optimizing individuals rather than truly understanding and confronting the larger structural forces that drive social ills Like Anand Giridharadas s *Winners Take All* *The Quick Fix* is a fresh and powerful indictment of the thought leaders and influencers who cut corners as they sell the public half baked solutions to problems that deserve more serious treatment *The Art of Artertainment: Nobrow, American Style* Peter Swirski,Tero Eljas Vanhanen,2019-03-31

Artertainment is more than a novel aesthetic term reflecting the fact that art and entertainment have cross pollinated each other throughout history It is a creative strategy that purposely intertwines highbrow and lowbrow aesthetics in the name of reaching the connoisseurs and the masses *The Art of Artertainment* sets out to unravel the jumble of aesthetic faultlines and prejudices found wherever we find artistic crossovers which is to say everywhere Revisionist iconoclastic and artertaining in its own right it provides a new framework for the analysis of American nobrow culture from the Colonial times to the digitally turbocharged present *Importing Faith* Glyn J. Ackerley,2016-07-28 Many twenty first century evangelical charismatics in Britain are looking for a faith that works They want to experience the miraculous in terms of healings and Godsent financial provision Many have left the mainstream churches to join independentcharismatic churches led by those who are perceived to have special insights and to teach principles that will help believers experience the miraculous But all is not rosy in this promised paradise and when people are not healed or they remain poor they are often told that it is because they did not have enough faith This study discovers the origin of the principles that are taught by some charismatic leaders Glyn Ackerley identifies them as the same ideas that are taught by the positive confession health wealth and prosperity movement originating in the United States The origins of the ideas are traced back to New Thought metaphysics and its background philosophies of subjective idealism and pragmatism These principles were imported into the UK through contact between British leaders and those influenced by American word of faith teachers Glyn Ackerley explains the persuasiveness of such teachers by examining case studies suggesting their miracles may well have socialand psychological explanations rather than divine origins *The Power Of Positive Living* Norman Vincent Peale,2010-04-09 If you find new meaning enhanced fullness of life and deeper happiness as a result of reading this book my purpose in writing it shall be fulfilled I hope that you may get all this and more out of it With the power of positive living I wish you the best in life Norman Vincent Peale in the Preface THIS BOOK WILL HELP YOU GAIN THE SELF BELIEF TO TURN YOUR LIFE AROUND Norman Vincent Peale s international
