The Post-colonial Studies Reader Bill Ashcroft, Gareth Griffiths, Helen Tiffin, 1995 The Post Colonial Studies Reader is the most comprehensive selection of key texts in post colonial theory and criticism yet compiled This collection covers a huge range of topics featuring nearly ninety of the discipline s most widely read works The Reader s 90 extracts are designed to introduce the major issues and debates in the field of post colonial literary studies This field itself however has become so varied that no collection of readings could encompass every voice which is now giving itself the name post colonial The editors in order to avoid a volume which is simply a critical canon have selected works representing arguments with which they do not necessarily agree but rather which above all stimulate discussion thought and further exploration Post colonial theory has occurred in all societies into which the imperial force of Europe has intruded though not always in the official form of theoretical text Like the description of any other field the term has come to mean many things but this volume hinges on one incontestable phenomenon the historical fact of colonialism and the palpable consequences to which this phenomenon gave rise The topic involves talk about experience of various kinds migration slavery suppression resistance representation difference race gender place and reaction to the European influence and about the fundamental experiences of speaking and writing by which all these come into being In compiling this reader the editors have sought to stimulate people to ask How might a genuinely post colonial literary enterprise proceed The fourteen sections include Issues and Debates Universality and Difference Textual Representation and Resistance Postmodernism and Post Colonialism Nationalism Hybridity Ethnicity and Indigeneity Feminism and Post Colonialism Language The Body and Performance History Place Education and Production

and Consumption Contributors include many of the leading post colonial theorists and critics such as Franz Fanon Chinua Achebe Gayatri Chakravorty Spivak Ngugi wa Thiong'o Homi Bhabha Derek Walcott Edward Said and Trinh T Minh ha in addition to a number of the discourse's newer voices The Post Colonial Studies Reader will prove an authoritative compilation representing an invaluable contribution to the study of post colonial theory and criticism **The Postcolonial Studies**

Ato Quayson, 2000-01-04 This important new book provides a critical introduction to the rapidly expanding field of postcolonial studies *The Postcolonial Enlightenment* Daniel Carey, Lynn Festa, 2009-02-26 Over the last thirty years postcolonial critiques of European imperial practices have transformed our understanding of colonial ideology resistance and cultural contact The Enlightenment has played a complex but often unacknowledged role in this discussion alternately reviled and venerated as the harbinger of colonial dominion and avatar of liberation as target and shield as shadow and light This volume brings together two arenas eighteenth century studies and postcolonial theory in order to interrogate the role and reputation of Enlightenment in the context of early European colonial ambitions and postcolonial interrogations of Western imperial aspirations With essays by leading scholars in the field Postcolonial Enlightenment address issues central not only to literature and philosophy but also to natural history religion law and the emerging sciences of man The contributors situate a range of writers from Hobbes and Herder Behn and Burke to Defoe and Diderot in relation both to eighteenth century colonial practices and to key concepts within current postcolonial theory concerning race globalization human rights sovereignty and national and personal identity By enlarging the temporal and geographic framework through which we read the essays in this volume open up alternate genealogies for categories events and ideas central to the emergence of global modernity *Empire, Colony, Postcolony* Robert J. What Postcolonial Theory Doesn't Say Anna Bernard,Ziad Elmarsafy,Stuart Murray,2015-08-11 This book reclaims postcolonial theory addressing persistent limitations in the geographical disciplinary and methodological assumptions of its dominant formations It emerges however from an investment in the future of postcolonial studies and a commitment to its basic premise namely that literature and culture are fundamental to the response to structures of colonial and imperial domination To a certain extent postcolonial theory is a victim of its own success not least because of the institutionalization of the insights that it has enabled Now that these insights no longer seem new it is hard to know what the field should address beyond its general commitments Yet the renewal of popular anti imperial energies across the globe provides an important opportunity to reassert the political and theoretical value of the postcolonial as a comparative interdisciplinary and oppositional paradigm This collection makes a claim for what postcolonial theory can say through the work of scholars articulating what it still cannot or will not say It explores ideas that a more aesthetically sophisticated postcolonial theory might be able to address focusing on questions of visibility performance and literariness Contributors highlight some of the shortcomings of current postcolonial theory in relation to contemporary political developments such as Zimbabwean land reform postcommunism and the economic rise of Asia Finally they address the disciplinary geographical and methodological exclusions from postcolonial studies through a detailed focus on new disciplinary directions management studies international relations disaster studies overlooked locations and perspectives Palestine Weimar Germany the commons and the necessity of materialist analysis for understanding both the contemporary world and world literary systems

Encyclopedia of Postcolonial Studies John Charles Hawley,2001-09-30 The collapse of empires has resulted in a remarkable flourishing of indigenous cultures in former colonies The end of the colonial era has also witnessed a renaissance of creativity in the postcolonial world as modern writers embrace their heritage The experience of postcoloniality has also drawn the attention of academics from various disciplines and has given rise to a growing body of scholarship This reference work overviews the present state of postcolonial studies and offers a refreshingly polyphonic treatment of the effects of globalization on literary studies in the 21st century The volume includes more than 150 alphabetically arranged entries on postcolonial studies around the world Entries on individual authors provide brief biographical details but primarily examine the author s handling of postcolonial themes So too entries on theoreticians offer background information and summarize the person s contributions to critical thought Entries on national literatures explore the history of postcoloniality and the ways in which writers have broadly engaged their legacy while those on important topics discuss the theoretical origin and current ramifications of key concepts in postcolonial studies Cross references and cited works for further reading are included while a comprehensive bibliography concludes the volume

The Postcolonial Orient Vasant Kaiwar, 2014-05-08 In *The Postcolonial Orient* Vasant Kaiwar presents a far reaching analysis of the political economic and ideological cross currents that have shaped and informed postcolonial studies preceding and following the 1989 moment of world history The valences of the post in postcolonialism are unfolded via some key historical political postcolonial texts showing inter alia that they are replete with elements of Romantic Orientalism and the Oriental Renaissance Kaiwar mobilises a critical body of classical and contemporary Marxism to demonstrate that far richer understandings of Europe not to mention colonialism modernity and difference are possible than with a postcolonialism captive to phenomenological existentialism and post structuralism concluding that a narrative so enriched is indispensable for a transformative non Eurocentric internationalism
