**The Political Outsider** Srirupa Roy, 2024-03-05

Defying the dire predictions that attended its birth as an independent nation state in 1947 the Indian republic is more than seventy five years old And yet it is a place where criticisms of actually existing democracy are intense and strident In recent years the trope of victimized people suffering at the hands of a predatory elite and political dysfunction has reaped rewards The populist language of redemptive outsiders pledging to combat a corrupt system has been harnessed in successful electoral campaigns like the majoritarian regime of Narendra Modi Tracking the shift from postcolonial nation building to democracy rebuilding Srirupa Roy shows how the political outsider came to be a valorized figure of late twentieth century Indian democracy tasked with the urgent mission of curing a broken democratic system what Roy terms curative democracy Drawing attention to an ambivalent political field that folds together authoritarian and democratic forms and ideas Roy argues that the long 1970s were a crucial turning point in Indian politics when democracy was suspended by the declaration of a national emergency and then subsequently restored By tracing the crooked line that connects the ideals of curative democracy and the political outsider to the populist antipolitics and strongman authoritarian rule in present times this book revisits democracy from India and asks what the Indian experience tells us about the trajectory of global democratic politics

*Democracy: A Very Short Introduction* Bernard

Crick, 2002-10-10 This book is a short account of the history of the doctrine practices and institutions of democracy from Ancient Greece and Rome through the American French and Russian revolutions and its varieties and conditions in the modern world It argues that democracy is a necessary but not a sufficient condition for good government and that ideas of the rule of law and of human rights and the claims and liberties of groups within society must often limit the will of

democratic majorities    **Deparochialising Global Justice** Aeiaz Ahmad Wani,2024-08-27 This book offers a deparochial account of global justice and addresses disenchantment stemming from its West centrality and provincial theoretical formulations As the recurring global poverty debate restricts the duties of alleviating poverty and inequality to the developed world this book attempts to broaden the spectrum of duties to the superrich of the developing world Drawing from the case study of India s superrich as an exemplar of the potent agency of rising powers the book examines the structural relationship between unbridled affluence and the un realisation of the human rights of the poor It contends that India s superrich like their counterparts in other powerful developing countries both contribute as well as benefit from the highly decentralised global economic order that produces affluence of the few and deprivation of the many within these countries In doing so this book argues that the superrich have a positive duty to alleviate poverty and reduce inequality beyond their free standing moral responsibility for philanthropy

**Dramaturgies of War** Anselm Heinrich,Ann-Christine Simke,2023-12-01 This book examines the institutional contexts of dramaturgical practices in the changing political landscape of 20th century Germany Through wide ranging case studies it discusses the way in which operationalised modes of action legal frameworks and an established profession have shaped dramaturgical practice and thus links to current debates around the institutional turn in theatre and performance studies German theatre represents a rich and well chosen field as it is here where the role of the dramaturg was first created and where dramaturgy played a significantly politicised role in the changing political systems of the 20th century The volume represents an important addition to a growing field of work on dramaturgy by contributing to a historical contextualisation of current practice In doing so it understands dramaturgy not only as a process which occurs in rehearsal rooms and writers studies but one that has far wider institutional and political implications

**That Sinking Feeling** Stefan Wellgraf,2023-08-11 Emotions especially those of impoverished migrant families have long been underrepresented in German social and cultural studies That Sinking Feeling raises the visibility of the emotional dimensions of exclusion processes and locates students in current social transformations Drawing from a year of ethnographic fieldwork with grade ten students Stefan Wellgraf s study on an array of both classic emotions and affectively charged phenomena reveals a culture of devaluation and self assertion of the youthful post migrant urban underclass in neoliberal times

**How the West Lost the Peace** Philipp Ther,2023-04-25 When the Berlin Wall was stormed and the Soviet Union fell apart the West and above all the United States looked like the sole victors of history Three decades later the spirit of triumph rings hollow What went wrong In this sequel to his award winning history of neoliberal Europe the renowned historian Philipp Ther searches for an answer to this question He argues that global capitalism created many losers preparing the ground for the rise of right wing populists and nationalists He shows how the promise of prosperity and freedom did not catch on sufficiently in Eastern Europe despite material progress and how the West lost Russia and alienated Turkey Neoliberal capitalism also left the world poorly prepared to cope with Covid 19 and the pandemic further weakened the Western hegemony of the post

1989 period which is now brutally contested by Russia's war against Ukraine. The double punch of the pandemic and the biggest war in Europe since 1945 has brought to a close the age of transformation that was inaugurated by the end of the Cold War. This penetrating analysis of the disarray of the post 1989 world will be of great interest to anyone who wishes to understand how we got to where we are today and the tremendous challenges we now face.

### **Demokratisierung der Postdemokratie**

David Scheller, 2019-12-10 Seitliche Proteste haben Hochkonjunktur. Mieter\_innen, Kunst und Kulturschaffende, Studierende, Wohnungslose und Geflüchtete melden sich zu Wort und fordern jenseits ihrer partikularen Bedürfnisse direkte Teilhabe an politischen Entscheidungen. Am Beispiel der Metropolen Berlin und New York zeigt David Scheller wie sich seitliche soziale Bewegungen zwischen 2011 und 2015 konstituieren und damit dringliche Themenfelder politisieren und verbinden. Ausgehend von einer hegemonietheoretischen Diskursanalyse der vielstimmigen Protestartikulationen schlägt er eine Interpretation von Möglichkeitsräumen zur Demokratisierung in der Postdemokratie vor, die für diese neue Phase seitlichen Protests ausschlaggebend sind.

### **Within and Beyond Capitalism**

Dieter Klein, 2023-12-08 This book argues for a twofold transformation to mitigate environmental catastrophe, avert war and overcome poverty and authoritarianism. A struggle for democratic peace oriented social and ecological changes within the framework of a post neoliberal but still bourgeois capitalist society and a drive towards entry level projects aimed at a great transformation beyond capitalism. Calling for the embrace of core values and institutions aligned with solidarity as opposed to capitalism, it advances four guiding ideas for the pursuit of such a path: redistribution of life chances and power, socio-ecological restructuring, redesign of democratic institutions and reversal from confrontation to peace through international

**Herrschaft - Staat - Mitbestimmung** Simon Hegelich, 2012-12-13

Herrschaft Staat Mitbestimmung ist eine theoretische und empirische Auseinandersetzung mit der Frage was den modernen demokratischen Staat im Allgemeinen und die Bundesrepublik Deutschland in ihrer aktuellen Verfassung im Besonderen auszeichnet Die These ist dass sich moderne demokratische Staaten in einem Spannungsverh ltnis von Dominanz und Partizipation befinden das sich nicht aufl st sondern vielmehr der Antrieb einer dynamischen Entwicklung ist Ausgehend von

einer Dekonstruktion post moderner Staatstheorien wird diese These in der dialektischen Staatstheorie von Hegel und der Marxschen Kritik an ihr verortet Die so entstandene Perspektive wird auf die Bereiche demokratische ffentlichkeit Systemwechsel in der Rentenpolitik und die Finanzmarktkrise angewandt um zu berprfen ob Europaisierung und Globalisierung zu einer substantiellen Vernderung des modernen demokratischen Staats gefhrt haben [A Textbook for an Introductory Course in Sociology](#) Jose A.
