Perfectionism in Moral and Political Philosophy

First published Tue Feb 13, 2007; substantive revision Fri Dec 15, 2017

Perfectionism has acquired a number of meanings in contemporary moral and political philosophy. The term is used to refer to an account of a good human life, an account of human well-being, a moral theory, and an approach to politics. Historically, perfectionism is associated with ethical theories that characterize the human good in terms of the development of human nature. Writers as diverse as Aristotle, Aquinas, Spinoza, Marx, and T.H. Green are perfectionists in this sense.

Speaking generally, perfectionist writers advance an objective account of the good and then develop an account of ethics and/or politics that is informed by this account of the good. Different perfectionist writers propose different accounts of the good and arrive at different ethical and political conclusions. But all perfectionists defend an account of the good that is objective in the sense that it identifies states of affairs, activities, and/or relationships as good in themselves and not good in virtue of the fact that they are desired or enjoyed by human beings.
